

# Data-driven clarity so you can manage discount requests with confidence.

Opaque, fragmented invoices make it tough to know what you owe. The cost of noncompliant discounts is growing. And the impact to your revenue is increasingly painful.

## Meet Kalderos Verify.

Powered by machine learning and built to ingest claims level data, Verify offers a unified view of all your discount transactions and the advanced algorithms to accurately assess each one.

When you know what you owe, you can pay what you owe, and put an end to the revenue leakage caused by noncompliant discounts.

### Kalderos Verify for Discount Monitoring

Powered by a first-of-its-kind digital platform, [Kalderos Discount Monitoring](#) is the only modern, cloud-based solution that applies intelligent algorithms to claims level data, identifying the noncompliance that other approaches miss.

# Built for impact at every scale

## Simplify workflows

A platform-based, tech-enabled approach saves time and effort, so your team can focus on what matters.

## Successfully resolve disputes

Verify is built to support every aspect of the dispute resolution process.

## End revenue leakage

Existing methods of claims validation miss billions of dollars in noncompliant discounts every year. Verify detects the noncompliance that conventional approaches miss.

### Learn more

With Kalderos Discount Monitoring, you can retroactively detect and dispute noncompliance up to five years in the past. [Get in touch today](#) and begin your journey toward drug discount clarity.

# What sets Verify apart?

## Tech-first approach

Kalderos' modern, cloud-based solutions for Drug Discount Management deliver a seamless, scalable experience with automatic upgrades.

## Collaborative network

Verify is part of the Discount Monitoring solution, which enables manufacturers, providers and payers to communicate and collaborate for the good of patients.

## Unique insights into 340B

With proprietary access to the world's largest dataset of verified duplicate discounts and a built-in tool to easily manage good faith inquiries, Verify integrates with Review to deliver peerless Discount Monitoring for 340B.

## Explore a new way to pay discounts

Verify easily links to [Kalderos' 340B Pay solution](#), which enables manufacturers, providers and payers to facilitate drug discounts transparently and accurately on a single platform.
