

Simplify the good faith inquiry process.

Responding to good faith inquiries from multiple manufacturers in different formats is tedious and time-consuming. It takes time away from patients. But there's a better approach.

Meet Kalderos Review.

This easy-to-use, platform-based tool enables 340B covered entities to respond to good faith inquiries quickly and easily, using a single, streamlined touchpoint.

Review reduces complexity, minimizes paperwork and makes 340B compliance less stressful for busy healthcare professionals, so they can spend less time on paperwork and more time on patients.

Kalderos Review for Discount Monitoring

Built on Kalderos' modern, cloud-based digital platform, Review uses machine learning to highlight high-risk claims and combines good faith inquiries from multiple manufacturers into one unified workflow.

Modernize your good faith inquiry process

Tech-enabled accuracy

With advanced algorithms and machine learning to identify high-risk claims, you can quickly and easily identify potential weak points that random sampling might miss.

Effortless compliance recordkeeping

Review provides your historical data set at your fingertips, effortlessly documenting your prior responses and your record of commitment to good faith compliance.

Easy collaboration with your whole team

Invite your team members and outside partners to work together to review claims and provide responses so everyone is on the same page.

Review and your workflow

Clear claims summary

Claims suspected of being duplicate discounts are regularly loaded into your Review account, and claims data is organized into a consistent set of fields.

Simple response options

Provide a "Yes" or "No" response to each claim, or utilize additional options to ensure an accurate response.

No PHI required

Review doesn't use PHI. Claims data contains no patient information, eliminating any concerns about HIPAA compliance.

Next steps

The 340B program provides essential support to safety-net healthcare providers and the vulnerable communities they serve. When you respond to good faith inquiries, you help ensure the program can work as intended. [Enroll in Review today.](#)
