

Data-driven clarity for managing discount requests with confidence

Opaque, fragmented invoices make it tough to know what you owe. The cost of noncompliant discounts is growing. And the impact to your revenue is increasingly painful.

Kalderos for Manufacturers

Powered by machine learning and built to ingest claims-level data, Kalderos for Manufacturers offers a unified view of all drug discount transactions and the advanced algorithms to accurately assess each one.

When you know what you owe, you can pay what you owe, and put an end to the revenue leakage caused by noncompliant discounts.

Kalderos MDRP Discount Monitoring and 340B Pay

Kalderos' first-of-its-kind digital platform provides modern, cloud-based solutions for holistic Drug Discount Management across programs, identifying the noncompliance that other approaches miss.

Built for impact at every scale

Simplify workflows

Replace disconnected spreadsheets with a platform-based, tech-forward approach so your team wins back time to focus on what matters.

Successfully resolve disputes

MDRP Discount Monitoring is built to support every aspect of the dispute resolution process.

End revenue leakage

A proactive tool to preempt revenue leakage by detecting noncompliant drug discount requests that conventional approaches miss.

Coordinate across programs

From 340B to MDRP and beyond, manufacturers can have confidence the right discount is being paid.

What sets Kalderos apart?

Tech-first approach

Cloud-based solutions for a seamless, scalable experience with automatic upgrades

Collaborative network

Empowering manufacturers, providers and payers to communicate and collaborate for the good of patients

Unique insights into 340B

Proprietary access to the world's largest dataset of verified duplicate discounts and a built-in tool to easily manage good faith inquiries

Industry experts

Our solution users are supported by experts across roles and backgrounds, creating a true business partnership.
