

# Gain a clear view of your Medicaid rebate claims

Chasing down duplicate discounts is no easy task when you're dealing with outdated technology and problematic data silos. Kalderos' solutions are built on a powerful platform that brings together 20+ third-party data sources, giving you an unprecedented view of drug discount claims at every point in the drug discount life cycle.

MDRP Discount Monitoring ensures you can dispute inaccurate claims confidently and deliver real impact to your bottom line. Get visibility into 340B duplicate discounts, drive efficient disputing with each state and stop revenue leakage due to noncompliant claims.

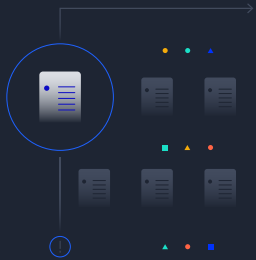

# Simplified workflows for success

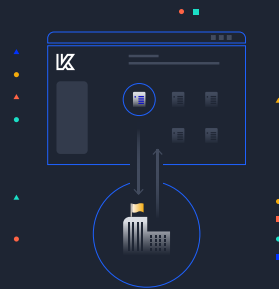

## Integrate

Integrate your data streams into the Drug Discount Management platform to house data in one place.

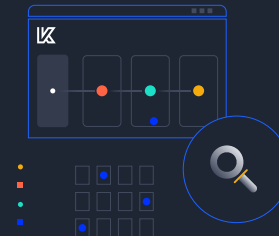

## Evaluate

Evaluate your noncompliant claims and make strategic decisions around workflows and disputes.

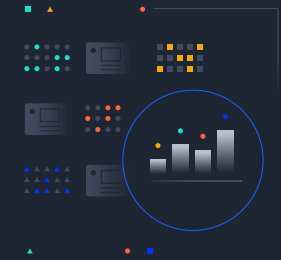

## Initiate

Initiate disputes directly within the platform and connect with states using transparent and accurate data.

## Monitor

Monitor your dispute status, responses and rebate information in the Dispute Center.

## Analyze

Analyze your dispute success and revenue return on dispute activity.

## One solution to handle all your MDRP drug discounts

### More accurate financial reporting

Give your accounting team the data-supported knowledge needed to make informed forecasts and optimize spending.

### Gold-standard data

Our data is verified by multiple stakeholders and confirmed by covered entities to ensure information accuracy.

### Tech-first approach

Our modern, cloud-based solution for Drug Discount Management delivers a seamless, scalable experience with automatic upgrades.

### Seamless collaboration

By using one central data source, we enable manufacturers, covered entities and payers to work together quickly and stay updated.
