## Halo collection

\* Please note that natural variations in wood colors make each piece a unique piece.

### Halo 04

Halo 04 was designed to become the base of your work station either at home or at the office. Our sit-stand desk will accompany you in all your work habits and will help you discover the benefits of standing. In fact, several studies show that alternating between sitting and standing can help prevent back pain, reduce the risk of weight gain, increase energy, improve mood and improve productivity.

Our sit-stand desk is equipped with a powerful 2 motors mechanism fitted with sensors that measure speed and alignment to ensure long life. The round legs are made of steel with a powder coated finish and can support up to 140 kg. The top is offered in black or white and its surface is made of high quality anti "fingerprints" laminate. The edge of the top is in solid walnut and is rounded to give it elegance and softness to the touch. The round wooden insert embedded in the top is the detail that confirms its belonging to our Halo collection. Like the other furniture in the collection, the furniture top is guaranteed for 10 years against any manufacturing defect. The base and the electrical components are guaranteed for 5 years.

### Wood essence

Walnut
