

We want you to grow with us

Hello! Would you like to join a startup where your passion and creativity will matter more than your title or tenure? A place where everyone communicates at eye-level? An environment where sharing is the focus above all? LivingPackets might be the place for you.

Since 2016, we've been developing the most advanced, smart, secure, and sustainable packaging solution ever: THE BOX. Robust and reusable, with a whole range of services and systems supporting it, we believe it will change the e-commerce industry. Having grown from a small research group in France to an international team of over a hundred brilliant, passionate, and creative minds, we are now very close to our next goal: mass production.

We want to reinvent packaging and logistics, and reimagine the e-commerce industry. We want to drive the world towards a fairer, circular profit-sharing economy.

Will you join us?

Site Reliability Engineer (SRE) (m/f/d)

We offer

- ✔ A real cause: help save the world from cutting down millions of trees, cardboard and plastic waste, and transform it into a circular profit sharing economy
- ✔ The unique chance to be directly involved in the growth phase of LivingPackets
- ✔ A flexible work culture with a focus on growth, passion, fairness, and environmental awareness. A place where your initiative and hard work is valued more than anything else
- ✔ An international team of exceptionally talented, motivated, creative and dedicated people
- ✔ The option to work in our Berlin, Paris or Nantes offices, or remotely

You bring

- ✔ Your job is to put yourself out of a job and tackle new improvements all the time
- ✔ People to help developers find and solve issues themselves and work on avoiding them in the future.
- ✔ Improve observability to remove all fear of production deployments
- ✔ Control Theory & Kubernetes
- ✔ GitOps, CI (Gitlab), CD (weave flux or similar)
- ✔ Ability to drive security, privacy, governance, DR, and other infrastructure as Code focus (mainly Terraform right now), you need to hate clicking buttons!
- ✔ Good Cloud knowledge, Google Cloud preferable. Networking basics and planning are desirable
- ✔ Cloud cost optimization
- ✔ You are fluent in English

Your responsibilities

- ✔ Primarily a coder who cares about making other coders productive. We are not looking for scripting admins. Solve with thinking first, not tools
- ✔ Encourage moving quickly by reducing costs of failure. Encourage "automating this year's job away" and minimizing manual systems work, to focus on efforts that bring long-term value to the system
- ✔ Shape the future of LivingPackets and THE BOX by helping create the core apps for our services
- ✔ Have a formula for balancing accidents and failures against new releases
- ✔ Believe that operations are a software problem, and define prescriptive ways for measuring availability, uptime, outages, toil, etc.
- ✔ Help build our brand as a company that brings smart and sustainable solutions, and design a product that people will love to use

Join us now

Have we aroused your interest? Then we look forward to seeing your application! Please write your heart out, and state the earliest possible start date for you, and your salary expectations.

If you have any questions in advance, Suk-Jung Kim will be happy to assist you via email. jobs@livingpackets.com
