

# We want you to grow with us

Hello! Would you like to join a startup where your passion and creativity will matter more than your title or tenure? A place where everyone communicates at eye-level? An environment where sharing is the focus above all? LivingPackets might be the place for you.

Since 2016, we've been developing the most advanced, smart, secure, and sustainable packaging solution ever: THE BOX. Robust and reusable, with a whole range of services and systems supporting it, we believe it will change the e-commerce industry. Having grown from a small research group in France to an international team of over a hundred brilliant, passionate, and creative minds, we are now very close to our next goal: mass production. We want to reinvent packaging and logistics, and reimagine the e-commerce industry. We want to drive the world towards a fairer, circular profit-sharing economy. Will you join us?

## iOS Developer (m/f/d)

### We offer

- A real cause: help save the world from cutting down millions of trees, cardboard and plastic waste, and transform it into a circular profit sharing economy.
- The unique chance to be directly involved in the growth phase of LivingPackets.
- A flexible work culture with a focus on growth, passion, fairness, and environmental awareness. A place where your initiative and hard work is valued more than anything else.
- An international team of exceptionally talented, motivated, creative and dedicated people.
- The option to work in our Berlin, Paris or Nantes offices, or remotely

### You bring

- Build, test and document next generation machine learning pipelines with focus on computer vision
- Clear communication and documentation with due diligence
- Work in a cross-functional, international team of specialists
- Delivering high quality models that can be adapted quickly for production
- Develop processes and tools to monitor and analyze model performance and data accuracy
- Develop custom data models and algorithms to apply to data sets.
- You are fluent in English

### Your responsibilities

- Proven experience in developing iOS apps using Swift
- Experience with main architectural patterns: MVC, MVP, MVVM, Clean Swift (will be a plus)
- Detailed knowledge of concurrency (GCD, Operation)
- You're able to prevent memory leaks (knowledge of ARC and MRC)
- Experience in UI / Unit Testing
- You are a team player (and experienced with Git Workflow)
- Experience with SwiftUI, BLE and Maps will be a plus

## Join us now

Have we sparked your interest? Then we look forward to getting to know you in a first call, where we would like to learn more about your heart & soul and earliest starting date. If you have any questions in advance, we will be happy to assist you via email at [jobs@livingpackets.com](mailto:jobs@livingpackets.com)
