

# We want you to grow with us

Hello! Would you like to join a startup where your passion and creativity will matter more than your title or tenure? A place where everyone communicates at eye-level? An environment where sharing is the focus above all? LivingPackets might be the place for you.

Since 2016, we've been developing the most advanced, smart, secure, and sustainable packaging solution ever: THE BOX. Robust and reusable, with a whole range of services and systems supporting it, we believe it will change the e-commerce industry. Having grown from a small research group in France to an international team of over a hundred brilliant, passionate, and creative minds, we are now very close to our next goal: mass production. We want to reinvent packaging and logistics, and reimagine the e-commerce industry. We want to drive the world towards a fairer, circular profit-sharing economy. Will you join us?

## Embedded Developer (m/f/d)

### We offer

- A real cause: help save the world from cutting down millions of trees, cardboard and plastic waste, and transform it into a circular profit sharing economy.
- The unique chance to be directly involved in the growth phase of LivingPackets.
- A flexible work culture with a focus on growth, passion, fairness, and environmental awareness. A place where your initiative and hard work is valued more than anything else.
- An international team of exceptionally talented, motivated, creative and dedicated people.
- The option to work in our Berlin, Paris or Nantes offices, or remotely

### You bring

- A passion for technology
- Embedded development and C/C++ experience
- Willingness to learn new programming languages if necessary
- A quick adaptation to changes to requirements
- An organized, motivated and independent working style
- Preferably, but not obligatory:
  - Golang experience
  - Backend development experience
- Fluency in English and German is required, French or other languages are a plus

### Your responsibilities

- For venture development, our purpose translates into solving daily business, social, and ecological challenges to roll out our transformational platform
- Support the VP Business Development in tackling complex market entries, key partnerships, and finding superior solutions in a fast-paced environment
- Travel to our partners all over the world to assist them with any issues pro-actively

## Join us now

Have we sparked your interest? Then we look forward to getting to know you in a first call, where we would like to learn more about your heart & soul and earliest starting date. If you have any questions in advance, we will be happy to assist you via email at [jobs@livingpackets.com](mailto:jobs@livingpackets.com)
