

We want you to grow with us

Hello! Would you like to join a startup where your passion and creativity will matter more than your title or tenure? A place where everyone communicates at eye-level? An environment where sharing is the focus above all? LivingPackets might be the place for you.

Since 2016, we've been developing the most advanced, smart, secure, and sustainable packaging solution ever: THE BOX. Robust and reusable, with a whole range of services and systems supporting it, we believe it will change the e-commerce industry. Having grown from a small research group in France to an international team of over a hundred brilliant, passionate, and creative minds, we are now very close to our next goal: mass production. We want to reinvent packaging and logistics, and reimagine the e-commerce industry. We want to drive the world towards a fairer, circular profit-sharing economy. Will you join us?

Android Developer (m/f/d)

We offer

- A real cause: help save the world from cutting down millions of trees, cardboard and plastic waste, and transform it into a circular profit sharing economy
- The unique chance to be directly involved in the growth phase of LivingPackets
A flexible work culture with a focus on growth, passion, fairness, and environmental awareness. A place where your initiative and hard work is valued more than anything else
- An international team of exceptionally talented, motivated, creative and dedicated people

You bring

- A passion for technology
- The ability to create pixel-perfect code from sketch files
- The capacity to build large scale applications in an iterative, test-driven way
- Team player mindset
- You know how to write clean, high quality, testable, and maintainable code
- An organized, motivated, and independent working style
- Experience working in startups is a major plus
- Fluency in English, German and/or French language is a bonus

Your responsibilities

- Shape the future of LivingPackets and THE BOX by helping create the core apps for our services
- Give people intuitive access to packing, shipping and tracking features and full control over their shipments at any time
- Work hand in hand with the product owner and our developers and play an important role in the evolution of our mobile platform
- Dive deep into the world of e-commerce and logistics
- Help build our brand as a company that brings smart and sustainable solutions, and design a product that people will love to use

Join us now

Have we sparked your interest? Then send us your CV and indicate your availability and salary expectations. Please do not send us a cover letter or a motivation letter, we believe that a standard application is not the right thing for this job. If you have any questions in advance, Suk-Jung Kim will be happy to assist you via email. jobs@livingpackets.com
