

DRILLING EQUIPMENT

National Oilwell Varco (NOV) is a leading worldwide supplier of equipment, technologies, and expertise in the energy sector.

reliable and durable drilling equipment in the oil and gas industry.

NOV build on what works and use their deep expertise to help minimize risk, increase uptime, and improve performance in drilling operations around the globe. NOV is known worldwide for their

With more than 150 years of experience, NOV knows how to make sure that their customers achieve lasting success. And by utilizing this strength of knowledge and innovation, NOV helps shape the future.

story

Today, offshore drilling operations are carried out in the most challenging condition, ranging from still waters to cold and harsh environment in the North-Sea. With their drilling equipment, NOV makes sure that drilling operations are more efficient, cost-effective, and safe.

bondura® expanding pins ensures safety and durability which is crucial to safe and efficient drilling. bondura® expanding pins have been part of NOV's drilling equipment (top drive, cranes, pipe handling equipment, etc.) for years with excellent track record.

benefits

- Minimized maintenance and repair cost
- Increased operational reliability
- Safer operation
- Higher precision by eliminating wear & tear
- Timesaving installation and handling
- Compensates bore tolerances
- Increased equipment lifecycle
- Easy inspection and service procedures
- DNV GL-type approved solution
