Message

We are thrilled to have a couple of good sized garden beds at our place. A bit of soil preparation and they will be ready for the planting - tomatoes,

capsicums, basil, eggplant - I love the Mediterranean vegetables. It is the hard work before hand that enables fruitfulness long term.

Perhaps we should see this as the time we are building structures, soil, that will enable us to be fruitful. We need the things in place that can enable health, we need the kind of soil/culture that enables people to flourish and God to do what only God can do - give increase. Creating great spaces for children, youth and families is the most urgent priority. If we do not address and resource this we can't expect a beautiful garden to celebrate.

I feel we are really up for this. But, given that all that we have been doing has created what we have now become, changes must take place so that we become more family focussed, discipleship focussed, mission centred. So if you have any ideas for family building, community gathering initiatives I would love to hear from you. It will take all of us to do all that God dreams for us!

- Nigel

Sermon: Rev'd Nigel Dixon

Collect for the day

God of creation,

You are revealed in the morning song of Tui, Bellbird and Magpie,
and in the golden evening waves reflecting the setting sun.

You surround us daily.

Open our eyes to delight in your presence,
and activate our hands into caring as you do for all you have made,
that your kingdom may come and your will be done.

Through Jesus Christ our Liberator, who is alive and reigns with you,
in the unity of the Holy Spirit, one God, now and for ever. Amen
