### Free HR from Unnecessary Admin and Get Set for Growth with EPI-USE People Central

---

**“It’s made us far more efficient in what we’re doing. It’s enabled us to focus on some more added-value activity rather than pushing paper around”.**

Clare Martin, HR Director, Jardine Motors.

Do you have time to get the most out of your workforce and add tangible value to the business, or are you tied up with admin? We help to free HR and Office Managers from time-consuming manual and paper-based tasks so they can work on achieving their business goals.

#### Efficient HR Processes

EPI-USE People Central automates and streamlines many of your people-based tasks. For example, employees can book their own leave on computers or mobiles and can check how many days they have left. Managers get automatic alerts to give approval and HR doesn’t need to get involved.

#### See Who’s in Your Team

A big issue we see in SMEs is not having any visibility into their employees’ roles, skills and job history. It can be very time consuming for HR to manually pull the information together, but with EPI-USE People Central it takes minutes. You can easily run real-time reports on headcount, turnover, absence and more. Data is also presented in visual dashboards so you can quickly spot issues and trends.

## Foundation for Growth

Build a strong foundation for growth with all your people data in one system. EPI-USE People Central is for life, you won't ever need to change HR systems as it will scale with you as you grow in employee numbers or if you operate in other countries. We show you how to use it (it's easy) and give you guidance on the key processes you need right now. EPI-USE People Central helps you run more efficient HR processes based on industry best practices.

You can add functionality, additional support and training as your needs change. For example, you might want to use other compatible modules such as our software-and-services payroll package, EPI-USE People Pay.

## Fast and Affordable

Pricing starts from £2.20 per employee per month. The subscription price includes our support for day-to-day issues, as well as quarterly legal and compliance updates. Getting this powerful, robust HR Cloud system in place won't be a major event or disrupt your business. We can get you up and running in as little as 6 weeks.

## Why work with EPI-USE?

EPI-USE one of the world's most experienced independent SAP HR and Payroll specialists. We are part of groupelephant.com, which employs more than 2,700 people in 31 countries.

We are passionate about using technology to solve challenges and do things better. We are proud to be an ethical company and have our own NGO <erp.ngo> which uses technology to solve the complex problem of poaching, save lives of endangered species and support rural communities in South Africa.
