

Ehab Zaghoul, CRS

Ehab Zaghoul is Chief Research Scientist of Tribal Credit, where he leads the research, design, and implementation of the blockchain ecosystem and TRBL token. Ehab has extensive blockchain expertise, having earned his PhD in Applied Cryptography and Cyber Security from Michigan State University. His research focuses on blockchain-based systems, which entails designing and implementing distributed data sharing and electronic voting algorithms. Ehab's work has been published in several top-tier, peer-reviewed journals and conference proceedings. He co-founded the blockchain investment firm, zk Capital, leading technical due-diligence and mentoring startups using the technology. Ehab holds MS and BS degrees in Computer Engineering with a specialization in Machine Learning from The Arab Academy for Science, Technology & Maritime Transport.
