

# Within OUR Power

Preventing and Addressing  
Sexual Harassment ....  
Together

## E-Learning Course

The Within Our Power e-Learning course is designed for individual, online learning. The course is SCORM 1.2 and can be installed on your LMS or you can access it on our LMS.

## The USB Workshop Kit

The Workshop Kit is for in-person, classroom training. All the materials you need are on the USB flash drive. Plug it into your laptop or computer and project for your session.

The Workshop Kit includes the comprehensive Workshop PowerPoint Presentation with embedded video files and Facilitator Notes to guide you on what to say and do, Facilitator Guide PDF, Participant Guide PDF

Mary Chlopecki is a true professional and partner for your Harassment and Inclusion training. If you are looking for someone to partner with you and your organization, take the time to find out your priorities and principles, and deliver a custom training that enforces your company beliefs, policies and ethics, then Mary is the person you are looking to partner with.

Having handled harassment issues as an investigator and a litigator, Mary brought her knowledge and years of experience to help us design a comprehensive program that meets the needs of our employees and a powerful and easy-to use-toolbox to help guide our managers, including articles and videos that resonate with our real life concerns and issues.

Gone are the cheesy videos that were never applicable to our IT organization, replaced by the videos included in the Within Our Power Workshop Kit that Mary created that mirror real-life issues taken from her experience as an investigator and litigator. The training is refreshing and designed for what we wanted as a management team and not a one-sized fits all program that wasn't applicable to our company.

Cathelene Thomas, Chief of Staff and VP, Railinc
