Specialized Care

- Landmarks for Living® philosophy of care recognizes the physical, social, emotional, mental and spiritual needs of each resident, and encourages maintaining independence for as long as possible to maintain self-esteem
- Mission-minded care team focused on enhancing the lives of residents and their family members through compassion, kindness, and a thorough understanding of the challenges memory loss may present
- Structure and design promotes improved self-esteem through successful participation in all components of the resident's life, including individual daily routines
- Personalized care incorporates each person's unique history, abilities, experiences, spirituality, culture and personality
- Individualized social activities support feelings of purpose, meaning and belonging, and provide opportunities for choice and decision
- MUSIC & MEMORY® certified community, providing personalized play lists for each resident, offering opportunities to connect with deeply held memories
- Variety of wellness programs, including on-site therapy services
- Resident's choice of current primary care physician or on-staff medical director
- Licensed health care professionals specially trained to care for residents with memory loss on site 24/7
- Medication administration and monitoring
- Assistance with personal care
- Access to dental, podiatry, ophthalmology, labs and X-ray
- Access to the full continuum of care in The Glen
