

See the difference
OPPORTUNITY makes.

Nilsen Eye Care is seeking an optometrist to join our thriving practice—one special individual who shares our unwavering commitment to our patients and each other.

Nilsen Eye Care (NEC) is a growing, two-location practice located in the suburbs of Richmond, Virginia. Our practice focuses on medical preventive eye care and caring for the overall health of our patients. Are you an enthusiastic optometrist wanting more than just a job? Would you like to join a great team with tremendous growth opportunities? If so, then read on.

In addition to our **highly competitive compensation package**, you will discover many other benefits that make NEC a very enticing career opportunity. Here are just a few highlights:

1. **You can utilize all your expertise and skills.** NEC serves a diverse array of patients, from young children having their first eye exams to senior citizens. You will treat everyone from individuals who need routine eye care to those with complex medical conditions. We want you to practice to the full extent that your education and license allow, and we'll provide the tools and support staff to enable you to do so.
2. **We're all about professional development.** You are more than just the "practice owner's day off." You are the future of the practice, and we invest in you. We have multiple doctors at each location. This is significant if you are a new grad and value the opportunity to learn by working alongside a more experienced colleague. Our processes, combined with your enthusiasm, will grow your following of patients quickly. If you're interested in specializing in a particular area of optometry or if you'd like to grow into a management role, let's talk about it and make a plan.
3. **We appreciate the importance of work-life balance.** NEC offers liberal PTO benefits, and unlike the "big box" stores, we don't do retail hours and are not open every weekend. We are well organized, so you can plan fun things and family events well in advance, knowing that you will be able to get the time off.
4. **We are a "right-sized" practice.** NEC offers a unique experience for our patients and staff. Our intake and communication systems minimize patient wait times throughout their visit. Our experienced techs manage pretesting, specialty testing like OCT and the majority of contact lens fittings. With this support, our doctors rarely feel rushed and can spend more time with each patient, which translates to high satisfaction all around. Check us out online and [read our reviews!](#)
5. **We offer a great place to live, work and play.** We are located in the highly desirable suburbs of Richmond, Virginia. It's a vibrant city that offers something for everyone—culture, universities, beautiful river views, world-class museums, an exciting food scene and a multitude of craft breweries. There are urban, suburban and rural living options, and in two hours, you can be in D.C., at the beach or in the mountains. The cost of living is favorable, indexing below the state and national averages. We enjoy four seasons, with mild winters, plenty of outdoor activities and an incredible selection of events. **For the top 12 things to know if you are moving to Richmond, [click here.](#)**

If you share our practice philosophy and can envision yourself growing and flourishing in this type of environment, please contact Dr. Eric Nilsen at dren@nilseneyecare.com or (804) 937-9851.

Come visit, and we'll show you how to **See the Difference Caring Makes.**
