

Healthy LifeStars®

Inspiring kids for life

Healthy LifeStars Serves All Kids

Since its founding, Healthy LifeStars has been committed to diversity and inclusion. Our mission is to motivate and educate all kids, especially kids in at-risk populations, to live active healthy lives now and in the future, regardless of race, religion, national origin, gender identification or socio-economic status. We abhor racism in any form toward any group.

Importantly, our programs are squarely focused on underserved communities, helping elementary-aged kids learn the behaviors, skills and habits that can help them be healthy and successful as they grow. We help kids learn to take responsibility, gain confidence and set the goals necessary to adopt healthy habits in every situation where they find themselves.

We are dedicated to working with all schools, youth-serving organizations and other community partners wherever there is a need. We strive continually to listen, better understand, and grow from conversations with our partners and the kids, families, and communities we serve – all in an effort to better help and empower kids to grow into healthy adults.

Your feedback is a gift. Please share any and all thoughts and feedback with us as we work to make our programs more effective in helping all kids.

Board of Directors,

Healthy LifeStars
