Blinds

“Commercial Blinds fitted out the blinds for the entirety of our new office: 12000sq foot of space. They clearly have a strong team, and I was given prudent, professional advice from the outset and throughout the surveying process. When terms were agree, the tradesmen that carried out the work were friendly and did a great job getting the blinds fitted quickly. 6 months later and the blinds are still in a great shape & we are pleased with the results. We would definitely recommend Commercial Blinds and use them again in the future.”

- The Buy to Let Business LTD

“Commercial Blinds & Glazing provided a great service throughout the organisation and installation of blinds within the air traffic control tower at Bristol airport. They were a pleasure to work with and helped to ensure completion within a tight time-frame.

- John Bluett, Bristol Airport

Roller Blinds

Office Roller Blinds provide a professional and elegant look to any office and are still one of the most popular options for use in offices, meeting rooms and boardrooms. These blinds also can provide better window coverage and create a uniform external appearance to all floors.

- Roller blinds for offices come in a wide variety of fabrics all of which are flame retardant to BS5867.
- Roller blind fabrics to meet new SKA environmental standards.
- Blackout roller blind fabrics which completely cut out light penetration through the PVC material are a popular choice for meeting rooms and boardrooms.
- For a complete blackout blinds option for your office there are cassetted roller blinds which are encased in head, side and bottom rails so that the meeting room or boardroom has no light penetration for more effective screen presentations.
- Personalise your blinds by adding your corporate logo or any other design to give a very effective visual impression.
- Solar Protective Coating (SPC) fabrics comply with Health and Safety regulations in the workplace by reducing the solar heat gain more effectively than typical fabrics.

Vertical Blinds

Vertical Office Blinds have been used within workplaces for years and are still one of the most popular office blinds. Over the years various vertical blind fabrics have been developed to adapt to the demands of the office environment, from general dim-out or blackout solutions to solar control and anti-bacterial remedies.

- 89mm and 127mm louvres available.
- A wide range of colours and textures available.
- Our vertical blind fabrics are flame retardant and comply with the British standard.
- Vertical blinds available in Solar Protective Coating (SPC) fabrics comply with Health and Safety regulations in the workplace by reducing the solar heat gain.

Venetian Blinds

Venetian Office Blinds have totally evolved over the years and are now one of the most popular blinds for the workplace. Unlike the twisted slats of the past, they are now a sleek, elegant, modern, professional solution.

- An excellent option for both external office windows and internal partitions, allowing the right amount of light to enter your room.
- Our range includes 15mm, 25mm, 35mm and 50mm solid or perforated aluminium slats in an extensive colour selection.
- Venetian blinds offer a modern look to any office, from a neutral solid slat colour through special finish and perforated slats to wood effect aluminium venetian blinds.
- The versatility in the venetian office blinds range makes an ideal low cost option for the office, meeting room or boardroom.

Motorised Blinds

Motorised window blinds provide a modern and functional alternative to manually operated blinds. Operated via a remote control, wall control panel or mobile device, select motorised blinds give a professional finish to your working environment.

We work with leading automation supplier Somfy to ensure we can fulfil any requirements. Choose the ultimate in blind design and you won't be disappointed.

We programme the devices and provide onsite training on how to operate, all that is left for you to do is press a button and watch the blinds go!

Blackout Blinds

Blackout Roller Blinds are the perfect solution for offices, allowing full light control and in particular for any room/office to hold presentations. They provide a sophisticated, elegant solution to all meeting rooms and boardrooms. They can also be emblazoned with corporate logos to create a striking visual impression.

Commercial Blinds offer competitively-priced blackout roller blinds in a wide variety of materials and colours, which can be made to fit exactly all customer requirements. We deal with all kinds of commercial clients from small businesses to large corporate enterprises, and as a leading supplier of commercial blinds, can fulfil all requests.

Printed Blinds

Digitally printed blinds give the wow factor to any working environment. We print onto high quality fabrics to ensure that colours are as vivid as possible gaining maximum attention.

Modern printing techniques allow high resolution, non fade images on blinds to be available at affordable prices. We have a wide range of digital print fabrics to choose from and can assist with the design. The only limit is your imagination!

- Printed blinds can be used to promote your company logo in a retail environment and add a new dimension to your marketing mix.
- They can also be used for educational purposes and for example we have printed a map of the world onto a school classroom blind.
- We have also worked with leading organisations such as Qatar Airways and Handelsbanken on bespoke projects aimed at increasing brand awareness.
- Make a statement with digitally printed window blinds.

Classroom Blinds

We have vast experience in supplying window blinds to schools, colleges and universities throughout the UK. Our product portfolio is vast enabling us to provide the most effective solution to suit the particular requirements of a room.

Whether it be full blackout blinds for a room with a smart board or anti-glare blinds for a computer room, we have the solution for you.

- With product development at the core of our business and access to over 1,000 fire rated fabrics, we guarantee 100% client satisfaction.
- We are happy to advise on the energy efficiency of our blinds and can provide technical data.
- All of our fabrics are industry approved and have a wide variety of individual properties.
- Our components are robust and life cycle tested so that they can withstand constant use.

Office Glass

"I just wanted to say thanks for installing the glass walls in my office, the end result is great and the lads installing it were very professional and left the office completely clean afterwards which is a rarity! Please do pass on my compliments to them on a job well done!"

- Mike Tomkins, Technical Director

Frameless Glass

The Crystal Glazing system provides a contemporary appearance and clean sight lines for the modern office environment. It maximises the level of natural daylight allowing light to fill every office while providing the feeling of space. The Crystal design is unique. Using clip fit sections it means that installation times are greatly reduced and almost eliminate the need for drilling and screwing.

We will create a full design service to provide you with a bespoke design package to “open-up” your workplace. Also available is the option to have your glass digitally printed, that is have your required image printed using ceramic ink which is fired into the glass during the tempering process.

- Ultra slimline 25mm base, head and wall sections.
- Unique design of glass solutions and timber door frames.
- Full integration with Finesse System.
- Full integration with Crystal double glazed.
- Accepts glass from 10mm to 15mm.
- Complete designer flexibility.
- Digital printing.

Framed Glass

Framed partition glazing is an effective way of separating workspaces. It allows unhindered vision while still maintaining privacy of the individual offices. It also keeps the flow of light across the whole of the floor. We also offer a range of stunning Glass Doors that can be purchased as part of an overall office glazing solution or alternatively standalone.

At Commercial Blinds & Glazing we work closely with the partitioning contractors in providing a glass, blinds and manifestation service at an extremely competitive price. Once the framed partition is installed, we arrive to install the blinds, glass and manifestation requirements.

- Single or double glazing.
- Clear or coloured glass.
- Laminated glass to increase safety and security.
- Choice of visual privacy provided by 25mm Venetian Blinds (with integral control) or Manifestation Design Film.
- Fire rated glass.

A photograph of an office interior featuring a large window with a frosted glass film. The film has a subtle, abstract pattern of white, wavy lines. The window is set in a modern office environment with a white wall and a white chair visible in the foreground.

Office Window Film

I'd like to thank yourself and your team for a great job on site and for their co-operation in getting the works completed on time. The client was delighted with the full fit out."

- P Slater, Sheffield

Glass Manifestation

Glass manifestation can be coloured, frosted or sandblasted. It can range from two simple rows of dots or squares (to comply with H&S regulations) to your company logo or any bespoke design you choose. It is very durable and retains good levels of natural light and can look amazing!

For the same look as silk screening, film manifestation offers a more cost effective and flexible option. When you want to change the design we can remove it easily with our up to date technology and apply a new look for you.

Our design service can create or enhance the corporate identity of your business. Miniature logos are an excellent solution to providing the necessary safety markings, whilst reinforcing your company's visual identity.

office-glass-manifestation](http://www.commercialblinds.co.uk/office-glass-manifestation)

Privacy Film

Frosted effect opaque films are designed specifically to provide visual privacy and security in sensitive areas by converting existing clear glazing to obscure, with little or no disruption to the work place.

It is a simple, attractive and durable way to transform ordinary glass with striking design features whilst allowing light to flood in.

You can choose from an extensive range of colours and create a design to suit your company. This is a very cost effective way of reducing visible glare whilst enhancing the look of your office.

See examples of our work at
[www.commercialblinds.co.uk/
privacy-window-film](http://www.commercialblinds.co.uk/privacy-window-film)

Solar Control Film

Solar heat gain is a major contributing factor to uncomfortable working conditions. Solar glare can cause eye strain, discomfort and headaches. This in turn can lead to reduced productivity.

Our window films improve visual privacy and aesthetics at the same time as being functional. They reduce solar heat gain by as much as 80%, reduce visible glare by up to 94% and decrease UV fading by 99%. The result is a more comfortable working environment and reduced energy consumption.

You can choose from a range of tints – natural, charcoal, grey, bronze, gold, green and blue.

Safety Film

Crime, vandalism, terrorism and natural disasters are all real concerns in the world we live in.

Safety and security films are designed to control and eliminate the danger and damage caused by flying shards of glass in the event of an explosion or attack.

The multi-layered films are installed to the inside surface of existing glazing. This provides a powerful and protective barrier by holding broken glass in place, so reducing the injuries and damage that would otherwise occur.

The films are clear and tested to recognised safety standards – Class A and B BS6206 1981 Impact Performance Requirements for Flat Safety Glass and European Standard Class 1B and 2B of BS EN 12600 Classification for Flat Glass.

All films have anti-shatter protection and you can choose from a range of various grades and combined solar designs. There is very little disruption as your existing glass does not need to be replaced. All work is carried out by our professionally trained operatives at times to suit you.
