20. **TERMS REGARDING THE USE OF NUTRITIONAL THERAPIST SERVICES**

20.1 As part of our services we may offer you consultations with certified nutritional therapists. By agreeing to accept and pay for the consultations and recommendations of one of our nutritional therapists you are confirming your full acceptance of and agreement with the following:

- Nutritional Therapy is the application of nutrition science in the promotion of health, peak performance and individual care. Nutritional therapy practitioners use a wide range of tools to assess and identify potential nutritional imbalances and understand how these may contribute to an individual's symptoms and health concerns. This approach allows them to work with individuals to address nutritional balance and help support the body towards maintaining health. Nutritional therapy is recognised as a complementary medicine and is relevant for individuals with chronic conditions, as well as those looking for support to enhance their health and wellbeing.
- Practitioners consider each individual to be unique and recommend personalised nutrition and lifestyle programmes rather than a 'one size fits all' approach. Practitioners never recommend nutritional therapy as a replacement for medical advice and always refer any client with 'red flag' signs or symptoms to their medical professional. They will also frequently work alongside a medical professional and will communicate with other healthcare professionals involved in the client's care to explain any nutritional therapy programme that has been provided.
- The Nutritional Therapist (NT) requests that the client notes the following:
 - The degree of benefit obtainable from Nutritional Therapy may vary between clients with similar health problems and following a similar Nutritional Therapy programme.
 - Nutritional advice will be tailored to support health conditions and/or health concerns identified and agreed between both parties.
 - Nutritional therapists are not permitted to diagnose, or claim to treat, medical conditions.
 - Nutritional advice is not a substitute for professional medical advice and/or treatment.
 - Nutritional therapists may recommend food supplements and/or functional testing as part of your Nutritional Therapy programme and may receive a commission on these products or services.
 - Standards of professional practice in Nutritional Therapy are governed by the CNHC Code of Conduct.

- This document only covers the practice of Nutritional Therapy within this consultation, and your practitioner will make it clear if he or she intends to step outside this boundary.
