

Special July 2017 VSP Budget Notice

This is a special notice regarding the Voluntary Stewardship Program (VSP)

VSP FISCAL YEAR 2018-2019 BUDGET: During the last legislative session, the state legislature continued to provide additional funding (\$7.602 million for the biennium) for the Voluntary Stewardship Program (VSP) into this current fiscal year (FY 18-19).

As a result, funding for VSP continues to be available to those counties that have opted-into VSP.

The Conservation Commission is working on current biennium contracts with each of the 27 VSP counties. We hope to have contracts sent to those counties by July 18, 2017.

If you are interested about the specific funding status of a particular VSP county, please contact that county directly. County VSP contacts can be found by clicking on the appropriate county on the map [here](#).
