The Role

We are looking for an experienced Backend Developer for our core peaq team. The role expects significant engineering knowledge with complex applications, including new feature work, improvements on existing code and active participation in architecting our decentralized infrastructure.

Minimum Qualifications:

- 4+ years of professional sw development.
- 2+ years of C++ working developer experience.
- 1+ year of C++ working developer experience (C++, C++17).
- Practical experience with relational and non-relational DB.
- Practical experience with TDD.
- Deep knowledge of Application Lifecycle Development.
- Bachelor/Master's degree in engineering, maths, physics, computer science or equivalent.
- Familiar with agile methodologies like Scrum or Kanban.
- Familiar with project tracking tools: Redmine, YouTrack, Jira.
- Experienced with CI/CD development process.
- Good spoken English.

Preferred Qualifications:

- Knowledge of either Rust, Go, JS, Elixir, Python is a plus.
- Experienced with DLT, cryptography, networking or blockchain.

- Knowledge of RocksDB is a plus.
- Practical experience with Docker containerization.

Responsibilities

- Developing a blockchain project- a real DLT project.
- Participating in technical discussions and presentations.
- Providing timely and accurate technical feedback to team members and sharing information with other company departments when needed.
- Creating technical documentation of the developed software.
- Contributing to software architecture and design.
- Developing unit tests.
- Further developing, implementing and maintaining the developed software.

What we offer

- The opportunity to contribute to innovative projects in a new and exciting industry that has the potential to change our world positively.
- High growth potential.
- Warm and open corporate culture at a truly international company with many different nationalities.
- An environment that values freedom, autonomy, team spirit and open communication.
- Flexible working hours.
- Base salary + commission.
- Office space in the heart of Berlin.
- Soft Drinks and coffee (We know how important caffeine can be).
