

Middle Go Developer

Starting Date: July 2021

Full time

The Role

As Middle Go Developer you will be responsible for backend development of new and ongoing projects. These projects are on the cutting-edge of DLT application for enterprise and will vary by size, scale, industry and complexity.

At peaQ you will find a team of hungry entrepreneurs and engineers driven by the opportunity to positively shape our collective future. We have the technology, the team and the timing to decentralize businesses, markets and even economies, creating more open, sustainable and inclusive ways of living and working. If you identify with this, you're not just looking for a 9-5, and are ready to take complete ownership of this position - we look forward to hearing from you.

Minimum Qualifications:

- Go Developer with +4 years experience in backend development and at least 1.5 years of experience with Go.
- Strong practical experience with MongoDB, MySQL and Redis.
- Practical experience with Docker containerization.
- Experienced with WebSockets.
- Deep knowledge of Application Lifecycle Development.

Preferred Qualifications:

- Good knowledge in one of these languages: Ruby, Elixir, Rust, C++, Erlang, Python.
- Bachelor/Master's degree in engineering, maths, physics, computer science or equivalent.
- Familiar with agile software development (Jira, Redmine, Confluence).
- Practical experience with TDD.

- Practical experience with cloud services.
- Familiarity with Postgress.
- Experience with RabbitMQ, Protobuf.
- Experience with Web Services (REST, RPC, gRPC).

Responsibilities

- Developing the backend of our high-loaded Web applications.
- Working with our blockchain API.
- Developing services with and without containerization.
- Working and maintaining different types of databases.
- Developing unit tests when needed.
- Communicating effectively and documenting the developed software.
- Working closely with the team in an agile environment to ensure high-quality products.

What we offer

- The opportunity to contribute to innovative projects in a new and exciting industry that has the potential to positively shape our world.
- High growth potential.
- Warm and open corporate culture at an international company with many different nationalities.
- An environment that values freedom, autonomy, team spirit and open communication.
- Flexible working hours.
- Decentralized (remote) working possibilities.
- Office space in the heart of Berlin and Potsdam. More offices will be opened soon.

We look forward to working with you.
