With over 15 years of experience in the industry, Maggie has had a love for makeup and making people not only look, but feel their best from a young age. She began painting and enjoyed the art of dance from age 3, both which shaped her future as a professional Makeup Artist. Maggie has been trained by and worked for MAC Cosmetics, Bobbi Brown, Smashbox, Laura Mercier, Shu Umura and has had the opportunity to learn hands on from some of the world's most sought after Artists such as Sir John, Eny Whitehead and Jill Powell. Maggie's laid back and outgoing personality puts her clients at ease. She sees each face she touches as a new blank canvas to create on. Her work ethic, attention to detail, ability to always think ahead and precise color and product recommendations are just a few of the great qualities Maggie displays. She truly has a passion for what she does and makes every set easygoing and fun when she is around. Feel free to check out her website listed above for her portfolio and full client list.
