Why Robo Wunderkind

Facilitate your students' hands-on steam learning with confidence.

Developed in collaboration with educators from different disciplines

Minimal preparation needed: start teaching with free, ready-to-use lesson plans

No technical set up required: all you need are tablets or computers to get going

We support you all the way. Become confident at teaching coding and STEAM in no time

No tech experience? No problem! Our simple onboarding and didactic materials make it easy to understand for any educator
