

Connect

This is our first official meeting!
Communicating and collaborating
around ideas, style and direction.

We listen, brainstorm, find inspiration and define your style. We'll identify the goals of your project, and develop a scope of work along with an idea of your budget.

Growing

We go away and process all the
information we've gathered.
Then, we convert this into the
design solution.

By researching your inspiration and cross
examining with your project goals we'll develop
your solution and build the design into a prototype
to present to you.

Showing

Presenting to you our insights,
product selection, design direction
and other ideas.

Let's chat! We present to you "Your Design!"
From here there's more listening and defining.
We'll confirm or deny choices of colour, material,
textures, finishes and furniture. Plus, other stylings!

The Solution

The finalised design! Ordering
products and organising the build.

Yay! You love it, we love it.

Enjoyment

Phew! We're all done.
Now, it's up to you to sit back and
enjoy your new space.

Let's take some photos of your beautiful sanctuary.
