

# The performance and appeal patients want

DreamStation offers a sleek, low-profile design. Its vibrant color screen displays daily progress and features easy-to-use menus.

DreamStation's top-mounted humidifier hose swivel and front-facing display make it easy for patients to operate while lying down or sitting up in bed. And, it's small and light, making it easy to pack for travel.

quieter**

The DreamStation PAP is 63% quieter than ResMed Aironse10.\*\*†

Hear it from **DreamStation users**

Good-looking piece of equipment! It's modern looking, doesn't look like a medical machine. It's quieter, too.

I liked it as soon as I opened it! I liked the way it was laid out and I liked the size of it — it was small, easy to fit on a table along with a lamp and my phone.

\*Phillips internal comparison, 2015, data on file.

\*\*Based on the average change in sound level during simulated patient breathing, across a range of pressure, expiratory relief, and humidifier conditions.

†Does not apply to non-invasive ventilation products
