

Stradasalt Icebreaker Rock

De-icing salt "Rock" 0.2 – 3.2, Fine

Product description

Stradasalt Icebreaker is a free-flowing rock salt de-icer with a suitable granular size. Stradasalt Icebreaker starts the melting process quickly and have a long durability. Stradasalt Icebreaker is also suitable to be dissolved with water into a brine, useful for pre-treating roads as an "anti-icing" brine spreading action.
