

The Next Generation Science Standards

Crosscutting Concepts

The Framework

Every NGSS standard has three dimensions:

Crosscutting Concepts

What they are!

- They are considered *fundamental* to understanding science and engineering.
- They *bridges* of great value across all disciplines.
- They are *ties* that bind all learning together, allowing students to see how different science subjects are interconnected – and relevant to their lives.

Cause & Effect Activity

- What is a Hypothesis?
- Is it a Theory?
- Is it a Law?
- What is the difference?
- Can a theory become a law?

Relate to the Inquiry Cube Activity
