Serving Our Community

Since 2011, Five Rivers Health Centers has been committed to providing access to quality, comprehensive and respectful care for our patients and community.

The entire Five Rivers Health Centers organization serves as a vital safety-net for underserved populations, particularly those who are low-income and the need for our services continues to grow.

We will consolidate some of our programs and services from existing sites into one larger, multi-purpose, accessible building with room for future growth.

The new facility will include internal medicine, pediatrics, women's health, dental, behavioral health, psychiatry, infectious disease and sickle cell clinics, care management, lab, pharmacy, acupuncture and much more.

Your Support is Needed
