## ACADIS REGISTRATION

Whether a routine class, a multi-week course or an intensive field exercise, every training program can track its roots to a shared origin: the registrar's office. If not managed effectively, enrollment creates a bottleneck that impacts students, instructors, facilities and, ultimately, a team's readiness.

**Acadis Registration** helps prevent those bottlenecks — and, in the process, keeps your training funnel full and flowing freely.

The end result? Maximized class fill rates and optimized throughput.

In simplest terms, Acadis Registration automates time-consuming processes and manages multiple registrations, waitlists, prerequisites and student preferences. So you'll be filling classes with the right students — and filling more of them easier than ever before. Meaning you'll be generating more efficiencies (and fewer headaches) in the process.

### KEY BENEFITS

**Save Time:** Eliminate cumbersome and time-consuming faxes, emails and phone calls through secure online registration, and capitalize on customizable fields to capture additional information during registration

**Enforce Prerequisites:** Fill your courses with the right students by defining and tracking prerequisite criteria, including training, certifications, skills and documents

**Optimize Capacity:** Take advantage of advanced waitlist functions to schedule trainees as soon as seats become available

**Support Planning:** Publish program waitlists and use that information to help forecast demand and inform strategic planning

*"Without this tool, we would not have been able to properly track the required training within our aggressive timeframe. We needed a way to keep track of who had or had not completed the 15 mandatory cross-training exams. Envisage's Acadis Readiness Suite helped us complete and deploy the technology in record time, and our training managers appreciated how easy it was to navigate."*
