IN THIS ISSUE:

- Quarterly Report Due Oct 10, 2020
- Five Year Report Template Release Webinar – *Not Recorded!*
- The Next Five Year Report Template Training – November 5, 2020 at 1 pm
- VSP Five Year Report Template Release Follow-up Information
- VSP Monitoring Forum – Available for viewing
- The Next Joint VSP meeting is October 29, 2020 at 9 a.m.
- Commission Presentation on VSP to the Legislature
- Five-year Report Due Dates
- Commission Revamps VSP Web Pages
- VSP FY 21-23 Budget Request
- Commission Seeks Environmental Representative for the SAC
- VSP County-Commission Contract Retainage Amendment
- WDFW Seeks to Fill Their VSP Coordinator Position

QUARTERLY REPORT DUE
OCTOBER 10, 2020: The [VSP](#)

[quarterly report](#) for July 1 – September 30, 2020 is due October 10, 2020. Avoid the rush and turn it in sooner!

FIVE YEAR REPORT TEMPLATE
WEBINAR: Due to technical difficulties, the training webinar on the five year report template the Commission held September 25, 2020 was not recorded.

The Commission intends to hold another training webinar on November 5, 2020, from 1 pm – 3 pm (for details on how to register for that webinar, see the next item).

In the meantime, the preview webinar the Commission held in July 2020, which contained much of the same information, is still available for viewing [here](#). We regret the inconvenience!

ANOTHER FIVE YEAR REPORT
TEMPLATE TRAINING WEBINAR: The Commission will host a second training webinar of the VSP five year report template on November 5, 2020 at 1 p.m. We will be sure to record it this time!

The template is intended for county work groups to use for their for five year reporting requirements under VSP.

The webinar will assist county work group members, technical service providers, county staff and others who are implementing VSP to understand and use the template to provide the Commission with the information needed for success in the five year reporting process.

After registering, you will receive a confirmation email containing information about joining the webinar.

Please register for VSP Five Year Report Template on Nov 5, 2020 1:00 PM PST at:

<https://attendee.gotowebinar.com/register/1135407793850022158>

After registering, you will receive a confirmation email containing information about joining the webinar.

If you have questions or are a person with a disability and need special accommodations, please contact the Conservation Commission at (360) 407-6200.

VSP 5 YEAR REPORT TEMPLATE
RELEASE FOLLOW-UP
INFORMATION: The Commission is working on the components necessary for the release of the VSP 5 year report template to the remaining 25 VSP counties who are set to submit their five year VSP reports between November 2020 and June 2021. Those items include:

- A letter to each VSP county instructing them to use the template to submit their five year report. The letter will be sent by regular mail and by email to both the person responsible for VSP at the county, and the service provider (if known to the Commission) who will actually submit the report on behalf of the county work group.
- The 5 year report process Guide, which will be posted on the VSP web page
- The 5 year report template and instructions, which will be emailed to each county contact for VSP
- The unique password necessary for each county to access the template

The Commission anticipates having all of these components in place for release in mid-October.

Please contact Bill Eller at beller@scc.wa.gov if you need to identify someone other than the official responsible person at your county who should receive the letter, template, instructions and password so that we can get those components into the right hands for a successful report submittal.

VSP MONITORING FORUM WEBINAR:
Last month the Commission hosted a

VSP Monitoring Forum. Forum topics covered a range of themes from landscape change detection to nutrient and erosion monitoring. Thanks to all of the presenters. If you have questions or feedback please contact Levi Keesecker via email lkeesecker@scc.wa.gov or phone 360-789-3650.

If you missed it, it is available for viewing on the Commission's *VSP Administrator* web page under the "[What's New?](#)" section. A direct link to the recording is [here](#).

JOINT TECHNICAL PANEL AND STATEWIDE ADVISORY COMMITTEE MEETING: Due to the ongoing pandemic, and to continue protecting the health and safety of our staff, volunteers, and the public, this meeting will be conducted via online web meeting and teleconference. All members of the public are welcome. If you would like to join us online, please follow the link included in the agenda to receive additional information on how to participate.

The next joint meeting of the Statewide Advisory Committee and Technical Panel will be Thursday, October 29, 2020, at 9 a.m. Links to join are below:

Joint VSP TP and SAC meeting
Thu, Oct 29, 2020 9:00 AM - 12:00 PM
(PDT)

Please join my meeting from your

computer, tablet or smartphone.
<https://global.gotomeeting.com/join/824629349>

You can also dial in using your phone.
United States: [+1 \(669\) 224-3412](tel:+16692243412)

Access Code: 824-629-349

New to GoToMeeting? Get the app now and be ready when your first meeting starts:

<https://global.gotomeeting.com/install/824629349>

The agenda and other materials will be posted on the Commission VSP web page.

CONSERVATION COMMISSION PRESENTATION TO THE LEGISLATURE: The Commission provided testimony to the House Rural Development, Agriculture & Natural Resources Committee on September 23, 2020 on the status of the VSP. We've linked that video on the Commission's *VSP Administrators* web page. A direct link is [here](#).

FIVE YEAR REPORT DUE DATES:

COUNTY	5 YEAR REPORT DUE
Kittitas	11.17.20
Mason	11.24.20
Garfield	11.30.20
Asotin	12.14.20
Grant	12.14.20
San Juan	12.21.20
Cowlitz	12.22.20
Pacific	12.22.20
Okanogan	12.28.20
Benton	1.12.21
Skagit	1.19.21
Whitman	1.19.21
Columbia	1.20.21
Yakima	1.21.21
Douglas	1.22.21
Pend Oreille	2.2.21
Franklin	2.24.21
Walla Walla	3.7.21
Stevens	3.10.21
Ferry	3.14.21
Grays Harbor	3.21.21
Lincoln	3.21.21
Lewis	4.18.21
Spokane	4.22.21
Adams	5.23.21

CONSERVATION COMMISSION REVAMPS WEB SITE: Last month the Commission sent out a special notice outlining our new web site and how to access VSP from it. Changes were necessary for cyber security and accessibility considerations.

Please be prepared for this change when you next access our VSP web page. VSP administrators should use

this [link](https://www.scc.wa.gov/vsp/overview) to access information for them: <https://www.scc.wa.gov/vsp/overview>

CONSERVATION COMMISSION VSP FY 21-23 BUDGET REQUEST: The Conservation Commission (SCC) is seeking funding to continue implementing the Voluntary Stewardship Program (VSP), including all 27 county work plans, and provide for state agency participation in the evaluation, review, and monitoring of work plan success.

Background

The SCC is tasked by statute to implement the VSP. In the past two years VSP counties have finished developing their local work plans and all counties have begun implementing their plans. By the end of April 2021, all counties will have submitted their first five-year review and evaluation report.

Proposal

The decision package will fund:

Implementation of 27 local county VSP work plans (\$6,750,000).

VSP counties have developed work plans describing the application of VSP. All work plans have been completed and were approved by the end of the 2017-19 biennium. Counties are now implementing their work plans, which includes outreach to landowners, developing individual landowner stewardship plans, monitoring the progress of implementation of these individual plans, and monitoring the

status of protection and enhancement of critical areas.

Funding to accomplish this is calculated at \$250,000 per VSP county for the biennium. Last biennium's funding was at \$240,000 per VSP county. The increase is based on feedback from the VSP counties as to the resources needed for implementation. Many counties requested more, but the SCC believes the \$250,000 amount is a reasonable state contribution. The SCC encourages each VSP county to make their own financial contribution to local VSP implementation.

The use of these funds is up to each VSP work group, but includes meeting statutory reporting requirements and ensuring progress on their plans.

SCC administration of the VSP

(\$500,000). The SCC is charged by the VSP statute to oversee and administer the VSP. The administrative tasks include formulating the VSP Technical Panel and Statewide Advisory Committee, conducting their meetings, having staff serve on the Technical Panel, creating a five-year reporting template and process, serving as the statewide clearinghouse for VSP information, policy and procedure, assisting counties with monitoring and data collection, conducting outreach and education events, meetings, and webinars, and creating and managing a VSP web page.

Additionally, SCC staff provide critical scientific guidance to local VSP work groups in relation to monitoring approaches, analysis, and reporting to assess both environmental quality and agricultural viability.

Other agency participation in VSP (\$600,000)

The WDFW, WSDA, and ECY join with the SCC to serve on the VSP Technical Panel, which approves all plans. Now that all VSP counties are implementing their plans, the Panel's role shifts to the review and evaluation of five year reports of the VSP work groups for the on-going success of the plans and their adaptive management actions. Agencies will also be coordinating with counties on VSP monitoring in the field.

WDFW's High Resolution Change Detection (HRCD) (\$575,000)

VSP counties must monitor and document their work plan implementation so that, at a minimum, their plan protects and does not impact critical areas. Monitoring these potential impacts allows the VSP work groups to adaptively manage their plans to achieve the resource protection goals. This is a requirement of VSP not found in non-VSP counties. A key tool for many VSP work groups is the use of High Resolution Change Detection (HRCD) technologies at WDFW. HRCD is visual imagery from the air that allows technicians to determine whether

changes are happening on the ground. Some VSP county work plans rely on this technology to support their outreach and landowner assistance work. Although WDFW has used this technology in a few counties, more resources are needed to support the use of HRCD in VSP work plan implementation. WDFW requests \$575,000 per biennium for High Resolution Change Detection (HRCD) for counties using VSP.

The Commission understands the need during the COVID-19 pandemic to maximize productivity while maintaining quality service with less resources. The Commission's VSP budget proposal seeks to achieve that with a nearly 15% reduction for the 2021-23 biennia over the FY 19-21 biennial proposal.

Total funding request for VSP for the 2021-23 biennium is \$8,425,000.

COMMISSION SEEKS ENVIRONMENTAL REPRESENTATIVE FOR THE SAC: An important part of the Voluntary Stewardship Program (VSP) is the Statewide Advisory Committee (SAC) appointed by the director of the Conservation Commission (Commission).

The SAC is comprised of environmental, agricultural, and county members, and tribal representation is also sought. The SAC serves to advise the director of the

Commission on a variety of policy and programmatic aspects of VSP.

The Commission is currently seeking an environmental representative to serve on the SAC. The term is for two years. Meetings are generally held every month or every other month. Members serve as volunteers to help the Commission achieve the goals of VSP, which include protecting critical areas while maintaining agricultural viability.

More information on the SAC can be found at the [Commission's VSP web page](#). If interested in serving, interested persons should contact Ron Shultz, Director of Policy and Inter-governmental Relations, rshultz@scc.wa.gov or by phone at 360-407-7507.

VSP COUNTY – COMMISSION CONTRACT RETAINAGE AMENDMENT: Each county contract with the Commission for VSP contains a provision for retainage of 10% of the contract amount, subject to certain performance requirements. The Commission anticipates releasing those funds to each county in the coming weeks, so counties will have access to the full amount of funds allocated to them for VSP through June 30, 2021.

Each county should receive a contract amendment adding the retainage into the contract in a few weeks. If you have any questions, please contact Karla

Heinitz at 360-407-6212 or by email at kheinitz@scc.wa.gov.

WASHINGTON STATE DEPARTMENT OF WILDLIFE SEEKS VSP

COORDINATOR: The WDFW has reopened their VSP Coordinator recruitment, and is seeking to fill that position. The deadline to apply is fast approaching (October 4, 2020). To apply or find out more about this position, follow this [link](#).
