

Charter Schools USA (CSUSA) will open this Fall for the 2020-21 school year, and we look forward to welcoming our families back to school. Whether families prefer to send their children to school or keep them at home, we are ready! Our teachers and staff are fully prepared to ensure the health and safety of our students. Our solutions provide peace of mind while accelerating academic growth.

**We will have innovative “Mobile Classrooms” at every school which have teaching and learning benefits. It provides options of teaching from the classroom, as well as taking the classroom to our students at home:**

## IN-PERSON AT SCHOOL

Our schools will open with heightened health and security measures to ensure the health and safety of our students and faculty. Families can feel comfortable and confident that our classrooms will be safe for their children.

- Social distancing will be maximized as much as feasible
- Cleaning protocols will be used to disinfect high touch areas
- Monitor for COVID-19 symptoms and limit visitors
- Mobile Classroom set up allows collaboration with remote learners and best-in-class teaching

## FULLY MOBILE EXPERIENCE

Our innovative Mobile Classroom at every school extends the reach of our best teachers and personalizes each student’s experience to their ability, not their age.

- Interactive technology in the classroom streams to remote students
- Best teachers in certain subjects are streamed in remotely to extend the reach of best-in-class teaching
- 1:1 technology devices are given to students, and we closely monitor performance to provide individualized lesson plans supportive of student’s ability

## FLEXIBLE MODEL OF BOTH IN-PERSON AT SCHOOL AND FULLY MOBILE EXPERIENCE

We are prepared for a combination of both remote and in-school learning to accommodate changing circumstances.

- Hybrid solution of both remote and in-classroom experience
- Mobile experience can take place at school or at home
- Seamless delivery and experience between both

# A TRULY INNOVATIVE, BETTER AND DIFFERENT LEARNING SOLUTION

We've invested in our facilities with safety and cleaning management resources, advanced technology, as well as professional development of teachers to offer new educational solutions that ensure students thrive and succeed regardless of where they learn. For those at home, we will utilize innovative technology to create a highly personalized form of learning and provide a high-quality education to every student.

**We will have innovative “Mobile Classrooms” at every school which have teaching and learning benefits. It provides options of teaching from the classroom, as well as taking the classroom to our students at home:**

## IN-PERSON AT SCHOOL

**Students would come to our school facilities, which will open with heightened health and security measures to ensure our students' and faculty's health and safety. You can feel comfortable and confident that your children are safe.**

- Our schools will follow CDC, state, and local guidelines on safety/health procedures, including wearing a mask and social distancing
- Facilities are cleaned regularly with state-of-the-art sanitization machines, and additional protocols are in place for highly touched surfaces to be cleaned often throughout the day
- Specific protocols include:
  - Monitor temperature checks and symptoms throughout the day for students and faculty
  - Enhanced handwashing and sanitation protocols
  - Improved communication platforms to maintain a consistent and open dialogue with our families
- Students in our classrooms also benefit from our “Mobile Classroom”, working with our best-in-class teachers regardless of their location, and experiencing personalized educational plans

## FULLY MOBILE EXPERIENCE

**Students are able to participate in their learning experience at home because of the interactive mobile technology set-up in our classrooms.**

- The “Mobile Classroom” extends the reach of our best teachers. It allows our master teachers who have demonstrated the greatest learning gains across subjects, to teach those specific subjects to other students across our family of schools
- A future-driven learning environment enables us to closely monitor student progress and teach students with a truly personalized experience based on their ability, not their age
- Smart 360 cameras and microphones in our classrooms provide a live feed of the classroom for students who have chosen to learn at home, allowing students to be part of the classroom experience, still work directly with their teachers, and collaborate with other classmates
- Teachers will use this technology to seamlessly shift between in-person at school and a fully “Mobile Experience”

## FLEXIBLE MODEL OF BOTH IN-PERSON AT SCHOOL AND FULLY MOBILE EXPERIENCE

**We are also prepared to provide a combination of both a remote and in-school learning experience to accommodate changing circumstances.**

- Students continue to thrive and learn seamlessly, regardless of their learning approach
- Classes may be held in traditional or non-traditional classroom settings or at home

**We've planned, prepared, and invested in becoming better to help students thrive with the highest quality educational solutions regardless of their location. Please reach out to your school if you have any questions, we look forward to seeing you this coming year.**
