

4FINANCE HOLDING S.A. REPORTS RESULTS FOR THE THREE MONTHS ENDING 31 MARCH 2018

INTEREST INCOME UP 18%, ADJUSTED EBITDA €32.1 MILLION, FURTHER STRONG INSTALMENT LOAN GROWTH

24 May 2018. 4finance Holding S.A. (the 'Group' or '4finance'), one of Europe's largest digital consumer lending groups, today announces unaudited consolidated results for the three months ending 31 March 2018 (the 'Period').

Operational Highlights

- Online loan issuance volume during the Period grew by 11% year-on-year to €337.3 million from €302.7 million in Q1 2017.
- Instalment Loan issuance volume up 119% year-on-year to €63.0 million, with strong quarterly growth since Q1 2017.
- Single Payment Loan issuance volume stable overall at €269.2 million (down 1% year-on-year), with LatAm Single Payment Loan issuance volume more than doubling year-on-year.
- The number of online lending active customers⁽¹⁾ was 0.41 million in the Period compared with 0.44 million in Q1 2017.
- TBI Bank loan issuance volume during the Period grew by 22% year-on-year to €61.5 million from €50.6 million in Q1 2017.
- TBI Bank active borrowing customers reached 0.46 million, up 11% from a year ago, with 0.21 million current accounts as of 31 March 2018, up 15% from a year ago.

Financial Highlights

- Interest income up 18% year-on-year to €123.6 million in the Period compared with €104.7 million in the prior year period.
- Operating income (revenue) up 18% year-on-year to €113.1 million in the Period from €95.6 million last year.
- Adoption of IFRS 9 as of 1 January 2018, including change of customer loan write-off period to 360 DPD from 730 DPD in the online lending business. Significant impact on opening balance of gross and net receivables and equity.
- Net receivables reached €549.1 million as of 31 March 2018, up 4% compared with 1 January 2018 opening balance.
- Pre-provision operating profit up 28% year-on-year to €52.0 million in the Period compared with €40.7 million in the prior year period.
- Adjusted EBITDA was €32.1 million for the Period, down 8% year-on-year, with adjusted interest coverage of 2.2x.
- Profit before tax for the Period was €15.2 million, decreasing 10% year-on-year from €17.0 million in Q1 2017, reflecting increased impairment charges, largely due to the transition to IFRS 9.
- Cost to income ratio for the Period was 54%, vs. 58% for Q1 2017, reflecting cost discipline and faster revenue growth.
- Financial strength remains solid, with equity / assets ratio of 15% as of 31 March 2018 and equity / net receivables of 27%. Both ratios improved by 1 percentage point during the quarter from their 1 January 2018 post-IFRS 9 levels.
- Improvement in asset quality following move to 360 DPD write-off, with an overall gross NPL ratio of 19.5% as of 31 March 2018 (22.1% for online) compared with 26.7% as of 31 December 2017 (33.5% for online).
- The annualised cost of risk for the online business was 27.2% for the Period, compared to 17.9% in Q1 2017, and in TBI Bank it was 9.8% for the Period, compared to 4.8% in Q1 2017. The increases reflect the impact of IFRS 9 and removal of 360-730 DPD online receivables.

Strategic Highlights

- Continued momentum in instalment loans, with particularly strong customer demand in Poland and ongoing migration of single payment loan customers to longer-term instalment products in various markets.
- Good progress with our new IT platform, designed to better support business growth, deliver faster product and scorecard innovation and facilitate IT cost reduction in the medium term, now in beta testing phase.
- Continued development of near-prime products, with the pilot in Spain progressing well, the Lithuanian near-prime lending business reaching a sustainable scale, and the pilot launch in Sweden in June.
- Further progress on funding diversification, with loan securitisation platform pilot expected to launch in July. TBI Bank annualised cost of deposit funding reduced to 1.0% in the Period from 1.5% in Q1 2017 and regulatory approval received to passport deposit license to Germany.
- Ongoing review of each market to ensure the businesses meet our financial return criteria. Decision taken to wind down Dominican Republic operations.
- CEO, Mark Ruddock has signaled his intent to step down, and will transition back to the Supervisory Board once the long-term CEO is in place in August 2018.

Mark Ruddock, CEO of 4finance, commented:

"These results evidence a strong start to the financial year, with interest income growth of 18% compared to the first quarter of 2017. This growth has been driven by an increase of over 50% in the contribution from instalment loans as we continue to successfully deploy the proceeds of last April's bond issue. Together with a healthy increase from TBI Bank operations, our portfolio rebalancing strategy has significantly diversified our product mix and provided greater visibility on future revenue. Our traditional single payment loan brands continue to evolve, with many markets migrated towards more line-of-credit like products. We continue to see promising progress in some of our newer markets, although we retain a conservative bias towards expanding before the economics are proven.

"As last year's strategic cost initiatives bear fruit, our focus on cost discipline is reflected in a cost growth which is lower than revenue growth year-on-year. Whilst we have more work to do on reducing the cost/income ratio, the reduction in quarter-on-quarter costs was encouraging. This was achieved despite our policy of expensing, rather than capitalising, tactical IT development related to our legacy platform. Finally, the 28% increase in pre-provision profits has meant we have been able to absorb the impact of moving to IFRS 9 provisioning and still maintain a solid level of profitability and EBITDA generation.

"When I agreed to step off the Supervisory Board and into the role of CEO, there were three specific initiatives we identified as being important foundations for the future of the firm: a new IT platform, the development and launch of near prime capabilities and the creation of a securitisation and funding platform. I am happy to confirm that all three are now at the point of implementation, and I am proud of the progress the company has achieved in the last year. I am confident that these initiatives, as well as our scale and financial strength, have set 4finance on a good trajectory for the future, and I look forward to working with the incoming CEO to continue to realise the potential of this business."

Interest income

The table below shows key drivers of interest income, i.e. business volumes and interest rates.

Annualised interest income / average net receivables	32%	29%	
Interest income from banking operations (1)	18.0	13.0	+38 %

Note (1) See appendix for full TBI Bank income statement.

Interest income for the Period was €123.6 million, a 18% increase compared with €104.7 million for the three months ending 31 March 2017. Growth in interest income from online lending was 15%, reflecting the 2% decrease in the average balance of net receivables and a higher average interest yield (both of which are largely caused by the introduction of IFRS 9 as of 1 January 2018).

TBI Bank's average interest rates increased compared to the prior year period, with an increased proportion of consumer lending (cash lending, point-of-sale lending and credit cards) with rates that average 45-50% p.a. compared to SME loans with average interest rates of approximately 8-14% p.a. TBI Bank also generates income which is reported separately in either the 'net fee and commission' and 'other operating income' lines.

Interest expense

Interest expense for the Period was €14.9 million, a 12% increase compared with €13.4 million for the three months ending 31 March 2017. This increase is mainly due to the US\$ bond issuance and refinancing in April 2017, with some of the increase offset by a weaker US\$ to EUR exchange rate. The write-off of deferred expenses in connection with the US\$ bonds in Q4 2017 has also slightly reduced the interest expense for the Period.

Non-interest income

Non-interest income for the period was €4.4 million, a 5% increase compared with €4.2 million reported for the three months ending 31 March 2017. The increase was mainly due to the net fee and commission generated by TBI Bank, primarily fees from insurance sales to its customers.

Total operating costs

Total operating costs reported for the Period were €61.0 million, a 10% increase compared with €55.7 million reported for the three months ending 31 March 2017. The growth rate is lower than the rate of revenue growth, reflecting our focus on cost discipline and the results of strategic cost initiatives put in place during 2017. Costs for Q1 2018 include IT development spend related to our legacy platform which would have been capitalised in Q1 2017, so the 'like for like' cost increase in the core business is less than 6%.

The table below sets out a breakdown of the Group's total operating costs. Depreciation and amortisation amounts are now shown as a separate line on the income statement so that operating costs better reflect actual cash costs.

	3 months to 31 March	
	2018	2017
	(in millions of	9)
Personnel costs	27.8	24.5
Marketing and sponsorship	12.9	12.8

Total	61.0	55.7
Of which:		
Friendly Finance	3.7	3.1
TBI Bank	10.1	8.0
4finance excl. acquisitions	47.2	44.5

For the three months of 2018 and 2017, marketing and sponsorship costs accounted for 21% and 23% respectively, and personnel costs accounted for 46% and 44%, respectively, of total operating costs. The cost to income ratio for the Period was 54%, an encouraging improvement from 58% in Q1 2017.

Non-recurring income/(expense)

Net non-recurring income for the Period was a *de minimis* €31 thousand. For the three months ending 31 March 2017, net non-recurring income was €4.4 million. The majority of the non-recurring income in the prior year period was due to TBI Bank, mainly portfolio sale gains (which were reclassified as debt sale proceeds within the 'net impairment charges' line in the audited FY17 results) and rental income (business sold in Q3 2017). The net impact of foreign exchange changes are shown in separate lines.

Pre-provision operating profit

For the reasons stated above, the Group's pre-provision operating profit for the Period was €52.0 million, a 28% increase compared with €40.7 million for the three months ending 31 March 2017.

Net impairment charges on loans and receivables

Net impairment charges for the Period were €36.8 million, a 55% increase compared with €23.7 million for the three months ending 31 March 2017. The introduction of IFRS 9 expected loss methodology for provisioning, including the move to 360 DPD write-off (from 730 DPD), was adopted as of 1 January 2018 and significantly impacts the comparison compared to prior periods. In general, for an equivalent portfolio, this results in higher gross impairment charges, as well as greater portfolio sale net proceeds and recoveries. In addition to this, strong instalment loan origination during the Period and higher charges in TBI Bank's Romanian consumer portfolio contributed to higher gross provisions. The quarter-on-quarter increase of c.€2 million is relatively small, given the increases in loan portfolio through 2017.

	3 months to 31 Ma	rch
	2018	2017
	(in millions of ϵ)
Impairment charges on loans	49.0	28.7
Over provision on debt portfolio (portfolio sale net proceeds)	(6.7)	(2.8)
Recovery from written-off loans	(5.5)	(2.2)
Net impairment charges	36.8	23.7

Overall net impairment charges represented 30% of interest income for the Period, a slight increase from 23% last year. The net impairment charges for the online business compared to average online gross receivables, i.e. cost of risk, also increased to 27.2% in the Period from 20.8% last year. This is impacted by the reduction in gross receivables due to the move to 360 DPD write-off.

Profit before tax

For the reasons stated above, the Group's profit before tax for the Period was $\\\in 15.2$ million, a 10% decrease compared with $\\in \\end{5}1.0$ million for the three months ending 31 March 2017. The profit before tax margin was 12% for the Period, a reduction from 16% for the three months ending 31 March 2017.

Corporate income tax

The Group's corporate income tax expense was unchanged at €4.6 million for the Period, compared with €4.6 million for the three months ending 31 March 2017.

The following table sets out a breakdown of the Group's corporate income tax.

	3 months to 31 March

	(in millions of ϵ)		
Current tax	8.5	11.2	
Deferred tax	(4.0)	(6.6)	
Total	4.6	4.6	

The effective tax rate for the Period was 30%, a small increase compared with 27% for the three months ending 31 March 2017.

Profit/(loss) for the period

For the reasons stated above, profit for the Period was €10.6 million, compared with a profit of €12.4 million for the three months ending 31 March 2017.

Note:

⁽¹⁾ Adjusted EBITDA is a non-IFRS measure that represents EBITDA (profit for the period plus tax, plus interest expense, plus depreciation and amortisation) as adjusted by income/loss from discontinued operations, non-cash gains and losses attributable to movement in the mark-to-market valuation of hedging obligations under IFRS, goodwill write-offs and certain other one-off or non-cash items. Adjusted EBITDA, as presented in this report, may not be comparable to similarly-titled measures that are reported by other companies due to differences in the way these measures are calculated.

Balance Sheet

The table below sets out the Group's condensed consolidated statement of its financial position. Given the substantial adjustments due to IFRS 9 adoption at year-end 2017, a pro-forma balance sheet is shown to illustrate the effective 'opening balance' of various line items at the start of the Period.

Assets

The Group had total assets of \in 993.2 million as of 31 March 2018, a 3% decrease compared with \in 1,026.9 million as of 31 December 2017. The decrease mainly reflects the IFRS 9 adjustments to opening balances, followed by strong growth in net receivables during the Period. Loans from related parties decreased due to the early repayment in full by Piressa (the former Russian business sold in 2015) of its \in 5.1 million loan in March 2018 prior to maturity in May 2018.

Loan portfolio

As of 31 March 2018, the Group's net receivables equaled €549.1 million, compared with €591.2 million as of 31 December 2017, representing a decrease of €42.1 million, or 7%. Excluding the IFRS 9 opening balance adjustment, net receivables increased by €20.1 million or 4%. The increase was mainly from growth in online instalment loans. The net receivables include €14.8 million from Friendly Finance and €226.7 million from TBI Bank (including fair value adjustments). Further information on the TBI Bank portfolio is available in the appendix, including its finance leases which are shown as a separate balance sheet line item.

The following section includes a summary of our overall loan portfolio, both online (funded outside of TBI Bank) and banking (funded by TBI Bank), showing gross and net receivables and performing vs non-performing classification. Additional reference information on the historic quarterly development of our online portfolio, split by product, is also shown in the appendix.

Online non-performing receivables

As of 31 March 2018, the Group's non-performing⁽¹⁾ online receivables were €101.9 million, a decrease of €70.6 million, or 41%, since 31 December 2017. This is mainly due to the change to 360 DPD write-off period at the end of 2017. Excluding this effect and starting from 1 January 2018, there was an increase of €4.3 million, or 4%, over the Period. Following this write-off period change, the Group intends to report its NPL ratios in the standard balance sheet manner, rather than comparing NPLs to loans sold during the prior 2 year period. The gross NPL ratio was 22% for the online portfolio as of 31 March 2018.

⁽¹⁾ Non-performing receivables (NPLs) - Receivables that are over 90 days past due.

The Group accrues interest whilst it is probable it will be received (typically up to 90 DPD for instalment loans). Non-performing accrued interest represented €11.4 million, or 11.2%, of the online NPLs. Penalties and delay fees are not accrued as receivables and are only recognised as income when payment is received.

The following table sets out an analysis of the Group's online NPL receivables by product. Given the substantial impact of the change in write-off period at year-end 2017, opening balance figures are also shown.

Other assets

A breakdown of the Group's other assets is presented in the table below. In October 2017 the Group made a prepayment of US\$25 million for a potential investment which it decided subsequently not to pursue. Consequently these funds will be repaid. The first instalment of US\$3 million was paid in March 2018 and the final instalment is due at the end of May 2018.

Liabilities

The Group had total liabilities of €847.1 million as of 31 March 2018, compared with €837.5 million as of 31 December 2017, representing an increase of €9.6 million.

Loans and borrowings

As of 31 March 2018, the Group had loans and borrowings of €467.2 million, compared with €470.2 million as of 31 December 2017. The Group's loans and borrowings accounted for 55% of total liabilities as of 31 March 2018 and 56% of total liabilities as of 31 December 2017. The following table sets out the loans and borrowings by type as of the dates indicated.

Notes:

- (1) 'Other' consists primarily of loans to Friendly Finance.
- (2) Includes accrued but unpaid interest, net of capitalised issuance costs.

In August 2014, 4finance S.A. issued US\$200.0 million of 11.75% notes (the '2019 Notes') which are listed on the Irish Stock Exchange and are senior to all of the Group's future subordinated debt. The 2019 Notes will mature in August 2019. Following the tender offer conducted in April, an amount of US\$68 million remains outstanding.

In May 2016, 4finance S.A. issued €100.0 million of 11.25% notes (the '2021 Notes') which are senior to all of the Group's future subordinated debt. The 2021 Notes are listed on the Prime Standard regulated market segment of the Frankfurt Stock Exchange. In November 2016, a further €50.0 million of 2021 Notes were issued at par. The 2021 Notes will mature in May 2021 and are callable at 106% from May 2018 and then 104% from November 2018.

In April 2017, 4finance S.A. issued US\$325.0 million of 10.75% notes (the '2022 Notes') which are listed on the Irish Stock Exchange and will mature in May 2022. An IFRS 9 adjustment as of 1 January 2018 resulted in a €5.2 million decrease to the carrying value from the revaluation at the original effective interest rate of a proportion of US\$ 2022 bond carried over from original US\$ 2019 bond (to be amortised over remaining life of bond via 'interest expense'). The 2022 Notes are first callable at 105.4% from May 2019.

Customer deposits

As of 31 March 2018, the Group had total customer deposits of €272.8 million. Banking operations contributed €259.7 million in deposits at an average cost of approximately 1.3% with the balance from 4spar in Sweden at an average cost of 7.4%. Further details of TBI Bank's deposits are presented in the appendix.

Other liabilities

A breakdown of the Group's other liabilities is presented in the table below.

	31 March 2018	31 December 2017
	(in millions of €, ex	cept percentages)
Accrued expenses	21.9	19.3

Equity

As of 31 March 2018, the Group's total equity amounted to €146.1 million, compared with €189.4 million as of 31 December 2017, representing a decrease of €43.3 million, or 23%. This represents the initial IFRS 9 opening balance adjustment of €53 million in total plus the impact of profit generation during the Period. The Group's equity to assets ratio as of 31 March 2018 was 15%.

The equity to net receivables ratio as of 31 March 2018 was 27%, reflecting the Group's strong capitalisation, even after the one-off intangible asset adjustments at the end of 2017 and the adoption of IFRS 9, still giving good headroom to bond covenants.

Off-balance sheet arrangements

The Group's total off-balance sheet commitments as of 31 March 2018 were \in 14.6 million. This includes TBI Bank's undrawn lending commitments of \in 11.0 million and financial guarantees \in 0.7 million as well as \in 3.0 million in connection with the Group's online portfolio (line of credit product). The Group also enters into currency hedging transactions which may result in additional off-balance sheet assets or liabilities, but these generally have limited net exposure and are designed to limit overall exposure to currency movements.

Net cash flows used in operating activities in the Period was $\[\in \] 2.3 \]$ million compared with $\[\in \] 16.0 \]$ million generated in the same period last year, mainly due to greater loan portfolio growth. Net cash from investing activities was $\[\in \] 2.7 \]$ million in the Period due to the early repayment of the Piressa related party loan and lower capex during the Period. The Group's cash flows used in financing activities were relatively lower during the Period given the major bond coupon payments now fall in May and November. The Group's full year 2017 cashflow statement is also included in the table for reference.

TBI Bank Appendix: Income Statement, Balance Sheet and key ratios

The Group finalised the purchase of TBI Bank EAD ("TBI Bank"), via the acquisition of TBIF Financial Services B.V., in August 2016. Presented here for illustration and reference are TBI Bank's results for the three months ending 31 March 2018 and three months ending 31 March 2017.

Total net receivables	240	239	_

As of 31 March 2018, consumer loans made up 77% of TBI Bank's gross loans, up from 77% as of 31 December 2017. The overall loan portfolio has a roughly equal contribution from both Bulgaria and Romania.

The non-performing receivables ratios by loan type are shown below.

	Consumer	SME (incl. leases)	Overall
Non-performing receivables to gross receivables ratio	11.2%	19.9%	13.3%
Provision coverage ⁽¹⁾	108.1%	26.3%	79.5%

Note (1) In addition to provisions, the SME receivables are backed by collateral with average loan-to-value of c.50%.

Customer deposits

TBI Bank's customer deposits and current accounts by client and type are shown below.

	31 March 2018	31 December 2017	% Change

RECENT DEVELOPMENTS

Recent developments include significant and material information about the Group's development and any changes since its last quarterly report that was published on 28 February 2018.

Acquisitions and disposals

Regulatory approval was received for the acquisition of the 20% minority stake in Friendly Finance in April 2018, and the transaction is expected to close in June 2018.

In May 2018, under the new licensing regime mentioned in previous reports, the Czech National Bank approved the license in the Czech Republic for the Group's consumer business.

Changes in management

Sergio Crespo Martin-Albo has joined the Executive Committee of the Group and taken on a broader role of Chief Marketing Officer. Sergio started his career at 4finance in 2016 as Marketing and Sales Director for Spain before becoming interim Country Manager. He has over 14 years of marketing and sales professional experience and he has worked at a large non-profit Spanish insurance company Mutua Madrileña and Linea Directa Aserguardora. Mikah Martin-Cruz left the Group in May to pursue other interests.

Nicholas Jordan stepped down from the Supervisory Board of 4finance Group S.A. in April 2018. Dmitry Babichev was appointed to Supervisory Board of 4finance Group S.A. in April 2018. Following these changes, the membership of the Supervisory Board is as follows: Lado Gurgenidze (Chairman), William Horwitz, David Geovanis and Dmitry Babichev. William Horwitz has been appointed to the Audit Committee and Dmitry Babichev will chair the Asset and Liability Committee.

Group CEO, Mark Ruddock, will be returning to the Supervisory Board once the long-term CEO is in place in August 2018. A further announcement is expected to be made in June 2018 once confidentiality restrictions due to the current employment of the new appointee are released.

Changes in the ownership structure

In May 2018, a change to the shareholder structure of Tirona Limited was initiated. A transfer of four percent from Uldis Arnicans' shares to Edgars Dupats was initiated and is expected to be settled in June 2018. Following this transfer, the ultimate beneficial owners of Tirona Limited will be as follows: Uldis Arnicans: 21.5%, Edgars Dupats: 29.5% and Vera Boiko: 49% (held in trust). It is expected that further divestments of Uldis Arnicans' ownership in the business will take place in coming months and an update will be provided in the next quarterly report.

Regulatory changes

In Sweden: new regulations in the consumer finance sector were approved in Parliament in the beginning of May. The changes include the cap of annual and penalty interest at 40%, limitation on extensions and overall cost of credit cap at 100% of the amount borrowed. The new regulations come into force from 1 September 2018.

In Finland: the draft government proposal to amend online lending legislation that extends the APR cap at 30% to loans of over €2,000 was provided in May 2018. These proposed changes have been in process for some time and the Group is contributing to the ongoing consultation process.

In Romania: since the introduction of the draft bill containing new regulations on APR caps for mortgage and consumer lending in February 2018, there has been a greater opportunity for consultation and debate than initially expected. The timing and outcome of this process is currently uncertain.

In Georgia: a reduction in the APR cap from 100% to 50% p.a. is being considered, as well as additional restrictions on unsecured consumer lending based on the PTI (payment to income) ratio.
