

Admission and Enrollment Policies:

Prospective students:

- Meet with the director or assistant director for a tour and admission interview
- Will be furnished admission and enrollment agreements, as well as our most current student handbook
- Be given information about our financial plans and policies
- Have any and all questions answered to the best of our school's ability or be directed to staff at TDLR who can answer them

Be aware that a prospective student is ineligible for state licensure if he or she has been convicted of, pled guilty to, entered a plea of nolo contendere/no contest to, or received a deferred adjudication to prostitution or another sexual offense, until the fifth anniversary from the date of conviction for a misdemeanor of moral turpitude or a felony, or the fifth anniversary from the date of conviction of a violation of the Massage Therapy Act. If you have more questions, you can find the guidelines for applicants with criminal convictions here: <https://www.tdlr.texas.gov/crimconvict.htm>

The 84th Texas State Legislature defines massage therapy education as “post-secondary education”, thus students can no longer enroll in massage therapy school unless they are beyond the age of compulsory education; an emancipated minor; or have a high school diploma, GED, or home school certificate. Students who have completed their secondary education prior to age 18 must have a parent or guardian sign the enrollment agreement.

The Woodlands School of Massage Therapy does not discriminate on the basis of sex, race, religion, nationality, ethnic origin or sexual orientation in the admissions process or administration of its educational policies.

Because we strongly commit to each student's success, we do in turn look for each applicant to have sufficient emotional maturity, academic and economic stability, and motivation to satisfactorily pursue massage therapy training.

Admitted students:

- Will furnish a copy of their state ID and social security card to be retained in their school file
- Have student kit fees paid one week before the start of class
- Have their tuition plan or payment approved before or on the first day of class
- Meet all financial obligations in a timely manner, as agreed on by the director and student
- Follow all rules as set out in the current school handbook
