

INSPECT PARTS WITH LESS WASTEWATER

CLOSED LOOP WATER FILTRATION FOR NON-DESTRUCTIVE TESTING WASTEWATER

EXTRAN™ NDT Water Filtration & Recycling System

Complete system filters **FPI wastewater**

Removes **penetrant** oils, dyes & emulsifiers

Efficiently **reduces waste** by 95% or more

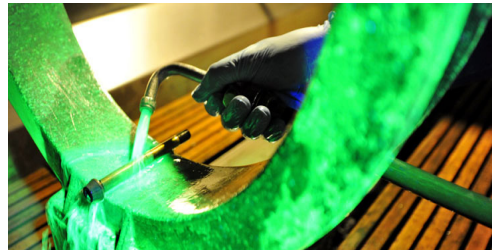

Water quality **meets specifications** for re-use or discharge

Prevents **bacteria growth** in the water

** Systems sizes vary based on your capacity requirements*

Fluorescent penetrant wastewater
is risky & difficult to handle

Efficient & Sustainable Solution

**WATER SAMPLES UNDER
ULTRAVIOLET LIGHT**

BEFORE & AFTER

INSPECT PARTS WITH LESS WASTEWATER

EXTRAN™ FPI WATER FILTRATION & CLOSED-LOOP RECYCLING SYSTEM

Easy to use system with VERY FEW CONSUMABLES

State-of-the-Art EXTRAN™ Ultrafiltration technology is VERY EFFICIENT

Durable system requires VERY LITTLE MAINTENANCE

Two-step filtration process with water polishing provides fail-safe reliability

Separation Dynamics specializes in NDT / FPI wastewater. We provide closed-loop systems for several of the world's leading manufacturing and MRO facilities.
