

# SurgiCount®

## Universal Reporting Tool (URT)

Scalability. Usability. Reliability.

Perioperatively, the SurgiCount Safety-Sponge System is designed to help your OR team prevent retained sponge “never events.” Postoperatively, it’s SurgiCount URT that continues to deliver benefits in the form of auditable, evidence-based data that you can leverage to drive compliance, continuous quality improvements and proactive communication.

## Virtually limitless data analysis

- Evidence-based reports aggregated from all Safety-Sponge data which validates count outcomes for every patient. Automatically aggregates all Safety-Sponge data tracked with the SurgiCount tablet
- All reports are downloadable with a single click to excel for further analysis
- Helps monitor adherence to hospital policy and third-party best practices (e.g. JCAHO)
- Fully encrypted data security

## Count. Capture. Be compliant.

- Provides post-operative evidence accounting for each uniquely identified sponge including serial number, type/size, time scanned in and out
- This validated ledger documents each procedure, patient and staff; providing a digital receipt for every sponge count
- Tallying tablet interactions helps track overall staff performance, set metrics and deliver positive outcomes for your patients!

Sponge ID	Type	Time In	Time Out	Disposition
N1bf49	4x18	10/08/2018 02:06 PM	10/08/2018 02:06 PM	Scan Out
Nd4027	4x18	10/08/2018 02:06 PM	10/08/2018 02:06 PM	Scan Out
Nc23ad	4x18	10/08/2018 02:06 PM	10/08/2018 02:07 PM	Scan Out
N672da	4x18	10/08/2018 02:06 PM	10/08/2018 02:07 PM	Scan Out
N2e6e2	4x18	10/08/2018 02:06 PM	10/08/2018 02:07 PM	Scan Out

## Actionable data on alerts

- Measures alerts and exceptions (to discrepancies in sponge counts)
- Itemizes reasons for alerts, including sponges intentionally retained for wound packing or cancellation of case
- Allows analysis by time of day, procedure length, procedure sponge usage and other criteria
- Helps users identify issues and determine potential COI needed

Case ID	Start	Alert Type	Alert Reason	Alerted To	Training Coordinator	Closing Coordinator	Service	Notes	Location

## Enhancing communication

- Automatically emails designated leaders when there is a non-reconciled report or exception
- Enables timely and consistent communication across all key parties for action and resolution
- Admin portal is password-protected, access from any onsite or remote computer
