**RE: 2020 ANNUAL WATER QUALITY REPORT FOR BLACK BROOK WD #1
PWS ID #NY0930151**

To our customers:

Our water district receives water from AuSable Forks WD, who prepared the Annual Water Quality Report enclosed with this letter. The Town of Black Brook is required to conduct water samplings in addition to sampling performed by the Town of Jay for the AuSable Forks WD. The results of our sampling are presented in the Table below. We want you to be informed about your drinking water, if you have any questions, please contact our Town Offices at 647-5411.

Our distribution system serves approximately 693 people through 231 service connections. We are required to test your drinking water for total coliform and E. coli bacteria, lead and copper, and disinfection by-products. Please refer to the definitions and table in the AuSable Forks WD Annual Water Quality Report for additional information about lead in drinking water and for information regarding the table below.

Contaminant	Violation Yes/No	Date of Sample	Level Detected	Unit	MCLG	Regulatory Limit	Likely Source of Contamination
Total Trihalomethanes (TTHM)	No	8/02/17	4.5	ug/l	N/A	MCL=80	Byproduct of chlorination
Total Haloacetic Acids (HAA5)	No	8/02/17	1.1	ug/l	N/A	MCL=60	Byproduct of chlorination

We continue to work at providing you with the best quality water possible. If you have any questions please feel free to call our office at 647-5411.

Sincerely,

Jon Douglass
Supervisor, Town of Black Brook
