

# MAKE 2021 YOUR BEST SAFETY YEAR YET

Why now is the most affordable time to try safety wearables in your facility

## THE STRONGARM DIFFERENCE

In an industrial safety climate as complicated as this, you need a leading-edge safety solution that's easy to deploy, quick to scale, and guaranteed to deliver actionable, intuitive results that drive an enduring safety culture in your facility.

StrongArm can help.

More companies are choosing our **FUSE Risk Management Platform** every day, spanning all industries, regions and job types — including yours.

Our **FUSE wearable safety sensor** is unobtrusive and extremely durable, providing ergonomic, environmental and Covid-related proximity alerts to the wearer, and predictive dashboards to managers.

Right now - in high schools, global logistics firms and boutique retail shops, and on massive warehouses floors and high-budget movie sets - our technology is actively reducing injuries and keeping workers productively distanced.

Workplace safety has never been more of a priority — fortunately, there has never been a more affordable time to try safety wearables in your facility.

## WHY SAFETY, WHY NOW?

For every **\$1** your spend on our risk management platform, we consistently return **\$8** in enterprise savings.

- **More industrial wearables deployed than anyone else in the marketplace**
- **Remote deployment means lower setup costs and faster ROI**
- **2.5 million hours of actionable movement, environmental and safety data collected every month**
- **25,000 FUSE Sensors active on Industrial Athletes™ worldwide, and counting**
- **Enduring partnerships with 20+ top Fortune 100 companies**

Current StrongArm Deployments

## A BRAND-NEW REASON TO CHOOSE FUSE

No two workplaces are created equal, just like each and every Industrial Athlete™ needs their safety equipment to perform in a different way for them to be their best.

We get that, which is why we offer multiple ways to wear our FUSE Sensor.

### SHOULDER STRAP

- FUSE sits on front torso
- Breathable, washable mesh
- Built-in size adjustment
- Designed for all-day comfort
- Fits most body types

### INTRODUCING: X-PACK

- FUSE sits on back, between shoulder blades
- Breathable, washable 3D mesh
- 4-way stretch
- Built for all-day comfort
- Fits all body types

## THE STRONGARM COVID RESPONSE

In just two weeks, workers wearing FUSE dramatically changed their behavior to reduce risk of exposure to other people.

### CURRENT DEPLOYMENT SUCCESS

**31%**

Decrease in proximity alerts between day 1 and day 2

**95%**

Decrease in proximity alerts between day 1 and day 10

**35%**

Maintained ergonomic risk reduction throughout COVID era
