## FUN OVER FIFTY COVID-19 TRAVEL UPDATE

Fun Over Fifty is proud to display the COVID Clean Practising Business logo and is now working under the guiding principles of the Queensland Tourism and Accommodation Industry COVID Safe Business Plan approved by the Chief Health Officer of Queensland.

## Travel IN STYLE AND SAFETY

We have developed and initiated business practices which are specifically aimed to maintain high hygiene standards and aimed at stopping the spread of COVID-19. Where practicable and possible, restrictions are in place to ensure social distancing guidelines are adhered to. Our aim is to prioritise your health and well-being whilst ensuring that your travel experience is in no way compromised, but you will notice some changes aboard our coaches and in the venues we visit. Designed in compliance with Queensland Health directives, and recommended Workplace Health & Safety and infection control standards, our COVID-19 Clean Management Plan and has been specifically tailored for our business and covers:

### SOCIAL DISTANCING

Our crew love nothing more than to welcome you onboard with a handshake however for now, a warm smile and hearty wave will be implemented.

### ENHANCED HYGIENE

This will not encroach on your experience, you probably will not even notice! While you enjoy a bite to eat and are taking in some amazing scenery or attractions, our crew will take some time to carefully and thoroughly clean all the touch points on the coach and have it fresh and clean every time you step onboard.

### STAFF TRAINING

While we took a short hiatus from the road, our crew underwent infection control and hand and respiratory hygiene training.

### POST TOUR MISTING TREATMENT

We've always prided ourselves on our fastidious cleanliness practices, but these have now been taken to the next level with all coaches being hygienically misted (think CSI style here) after each and every tour. Our coaches are then closed for 48 hours for treatment to finalise. This treatment will now remain as common practice moving forward.

The misting treatment is non-toxic and is used in hospitals, restaurants and doctors' surgeries.

**We are very much looking forward to travelling with you all once again knowing that we have practices in place that will keep both our staff and our guests safe and healthy.**

## SAFE BOOKING GUARANTEE

### Keeping your funds secure

#### REFUNDABLE DEPOSIT OR FUTURE HOLIDAY CREDIT

If COVID-19 restricts operation of tour, 100% of deposit paid can be held as future holiday credit OR refundable less administration fee (terms and conditions apply).

Each tour series attracts differing terms, so please discuss with your reservation consultant at time of booking.
