

POINT BLANK SHOOTING

RE-OPENING ITINERARY

GOING THE DISTANCE

HOWDY FRIENDS

We've missed each and everyone of you! The lockdown has been a lot longer than any of us first expected but during this time of closure we've been continuing to make huge plans for Point Blank and if anything, this time has been spent getting us even more geared up and ready for action!

This document outlines the plans we have implemented to keep one step ahead of our ever changing environment. We need each and every one of you to play your part in what is one of the largest changes to society history has ever seen. Our number one focus is the safety of every person that walks through our doors, from our team, to customers, booze reps, maintenance workers...

We cannot wait to get the Point Blank party re-started. So, here's to making some changes and here's to having a Revolver in one hand and a frosty stein in the other!

RISK ASSESSMENT & TRAINING

We have completed a risk assessment regarding all things COVID and will be doing the rounds in order to keep every single person in the building as safe as possible. As always, we try our best to stay ahead of the times in every way possible.

Before the closure of all pubs and restaurants in the UK every single member of our team completed the certified CPL Learning course 'Coronavirus – Taking Proactive Action – Hospitality'. Since then our entire management team have further completed the certified course 'Ready to Serve – Reopening Following Lockdown'. Full in house training has also been given to every member of our team has been signed off regarding all of our new COVID procedures, of which you can find explained below.

If you have any questions at all prior to visiting us, then please don't hesitate to ask. Pick up the phone and give us a call, drop us an email, or even swing us a message on social... someone will get back to you and answer any questions you may have regarding our COVID policies. These procedures have been put in place in order to make every single person that enters the building feel as safe and as comfortable as possible during their time with us, from staff, to guests... your safety is out number one priority.

TEMPERATURE CHECKS

Temperature checks will be given to all members of our team as soon as they enter to building to start their shift and results will be recorded on a database. Any staff member showing an abnormal temperature reading will be sent straight home and advised to monitor their temperature before returning to work for their next shift. Members of the team will only be allowed to work if they have a normal temperature reading. Any team members who report any signs of COVID-19 symptoms will be asked to self isolate for 14days.

Staff

All guests will have their temperature taken via a digital infrared checker upon arrival.

Guests

Please note that if you have an abnormal temperature reading you will not be permitted entry.

TRACK & TRACE

Whether you're visiting us in a group for a shoot or on your own for a drink at least one member of your party will be asked to provide their name, contact number and email address. This will allow us to contact you in the event that someone who has visited us at the same time as you, reports a confirmed case of COVID-19. This will allow us to keep all staff and guests as safe as possible and will ensure that we are playing our part in preventing the spread of the virus.

Our shooting ranges are all situated 1 metre apart and we have made changes to our bar area to ensure the same guidelines apply to all tables in the venue. 1 metre distances will be clearly marked out on the floor throughout the venue. We are also staggering all bookings in order to minimise the cross over of groups in the venue and staff will be monitoring the capacity within the venue at all times.

SOCIAL DISTANCING

CLEANING

Frequent and regular cleaning will take place throughout the day of all tables, shooting ranges, surfaces and toilets. We are also now closed on Mondays in order to give the venue a full deep clean following a weekend. All tables, shooting ranges and guns will be deep cleaned after every use. We are sanitising every single gun prior to use.

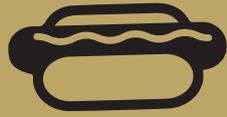

PPE

All of our team members have been provided with the PPE needed to keep themselves and all guests as safe as possible. Team members have been provided their own face masks and have will always have disposable gloves available for them to use. All staff have been trained on the importance of frequent hand washing and hand sanitiser is available at all times. This goes the same for guests. Hand sanitiser dispensaries will be placed in numerous areas around the venue and disposable gloves will be available on reception.

TOILETS

We endeavour to operate a one in one out system in regards to our toilets. Notices are clearly displayed on the doors to explain this and only 1 cubicle will be available at any given time.

**WE WANT TO MAKE SURE EVERYBODY FEELS
AS SAFE & AS COMFORTABLE AS POSSIBLE.**

ORDERING FOOD & DRINK

* * * * *

Full table service will be given during your visit and orders will not be taken at the bar. One of our team members will be on hand to guide you with your shooting and to take any food and drink orders and bring them straight over to your table. Menus will not be available on tables, our full food and drinks menu is available online for you to view either prior to your booking or on your mobile whilst at the venue. Disposable copies of our menu will be provided upon request.

* * * * *

**AS A COMPANY, WE ENDEAVOUR TO BE AS HOSPITABLE
AS POSSIBLE AT ALL TIMES.**

**Walk ins are still welcome providing there is
enough room given the reduced capacity of the
venue. If you would like to stay for a drink with us
following your booking then again, you are more
than welcome to do so providing we have the ca-
pacity. Please bare in mind we are trying to keep
all guests and staff members as safe as possible
during these times.**
