

Installation Operator I - III Job Description

We are currently seeking to hire an Installation Operator I - III to join our team! You will be trained to install countertops and other slab products, including shower benches, slab walls, waterfall ends, and more. This will involve gluing countertop joints, cutting outlets and making other modifications to pieces or substrate on site. We are seeking candidates with a strong attention to detail who enjoy working with their hands. Prior experience in stone installation is not required for the Installation Operator I position, but is required for the Installation Operator II - III positions.

Qualifications (Required):

- Ability to work on your feet for a 10 hour shift, excluding breaks (4 days/week work schedule)
- Ability to improvise solutions to correctly install pieces
- Possession of a valid driver's license with clean driving history
- Ability to lift 60 lbs unassisted

Qualifications (Preferred):

- Experience and/or certification as a forklift operator

Montana Tile & Stone is an Equal Opportunity Employer.
