## **COVID - Mask Update**

Last night, September 20, 2021, the Council returned its attention to the ongoing Covid protocol conversation. They made a decision to be consistent with Room in the Inn and Christ Lutheran Children Center on several points:

1. To ask that all volunteers and staff who work with children 12 years and younger be masked and vaccinated. Those who are not vaccinated will be reassigned other duties.
2. Those volunteer opportunities that do not involve a 15 minute contact such as greeters, ushers and communion assistants do not need a vaccination, but they do need to remain masked at this time.
3. In regards to transportation provided by the church, all people on the vans/buses need to be both vaccinated and masked, with windows open as the weather allows.
