# BibliU

THE ESSENTIAL GUIDE TO UNIVERSAL LEARNING

We are BibliU.

DAY ONE ACCESS TO E-TEXTBOOKS AND COURSEWARE FOR ALL

BibliU is a Learning Enablement platform that leverages digital content management, automation, and analytics to enable more efficient and effective learning. Our Universal Learning solution provides students with day-one access to millions of learning assets from thousands of publishers, including OER, that academics actually want to use.

Academic success should never have a price tag.

Whether or not a student can afford to purchase required course content should have no impact on their success.
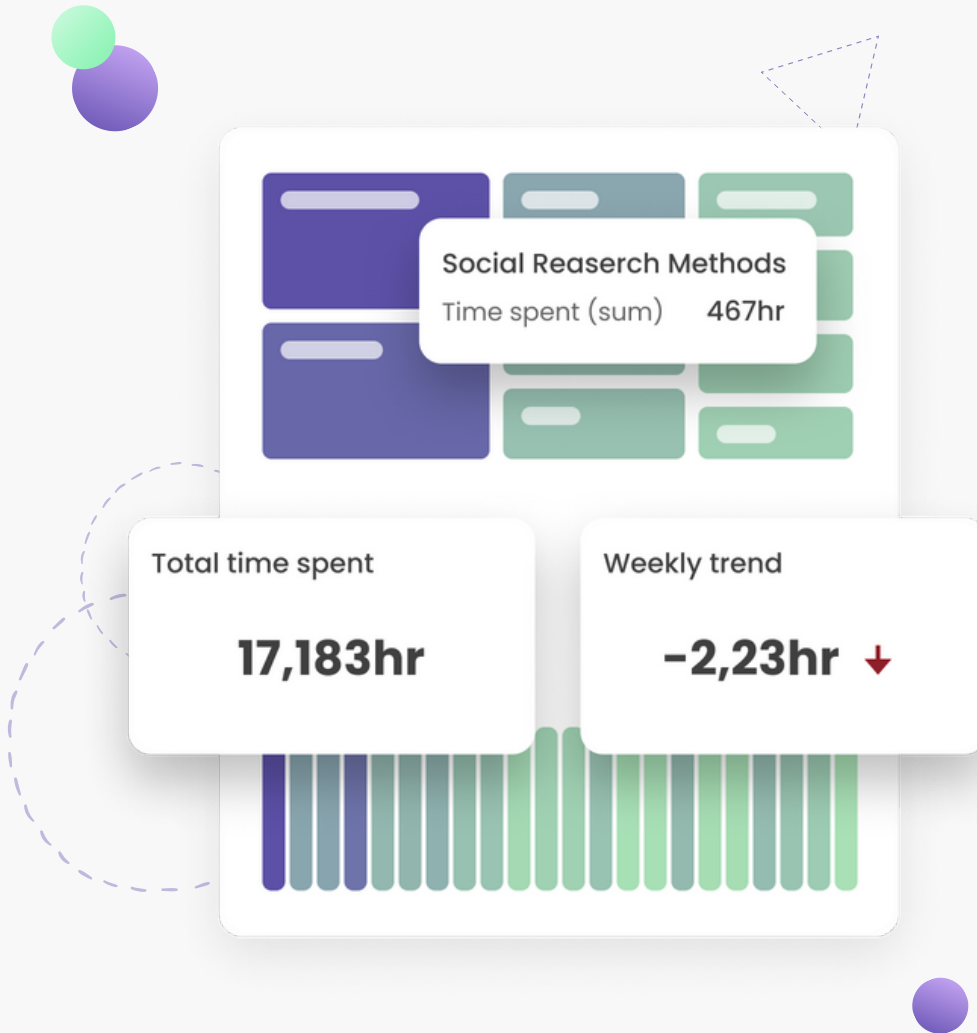

All students deserve to have content access on the first day of class. With BibliU's Universal Learning Solution, you can ensure that every student has the content they need to succeed from day one.

Make content more affordable.

A campus-wide solution, BibliU Universal Learning provides a low per-student price that saves 30-50% on the cost of textbooks while ensuring all students have access to the content they need on the first day of class.

Improve student success with analytic insights.

Digital content can improve student success rates by 8%.

BibliU's Learning Enablement platform includes data-driven insights into student study habits, content usage, and engagement to improve persistence.

Generate optional auxiliary revenue.

Universal Learning provides options to support auxiliary revenue for student services, bursaries, and more.

The old "one size fits all" model of outsourced college bookstores doesn't work anymore. If you're struggling to generate revenue with your current campus store, BibliU provides the means to digitally transform your bookstore and generate up to $500,000 in auxiliary revenue.
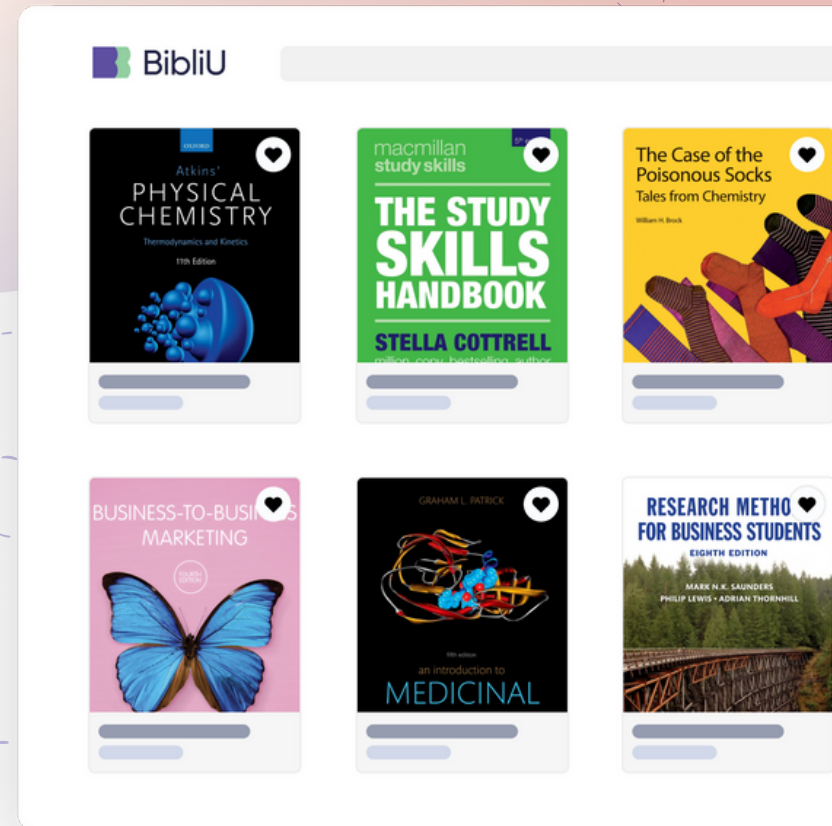

Ensure academic freedom.

With millions of resources and courseware options from thousands of publishers and OER, BibliU allows academics to control their catalogs and select the titles they want—without compromising or worrying about the cost to students.

# All content.
For all students.
On one platform.

The BibliU Learning Enablement Platform empowers universities and colleges to automate learning content workflows and improve student outcomes, providing digital textbooks and courseware more cost-effectively than ever before.

WHAT OUR CUSTOMERS ARE SAYING

JACKSON COLLEGE

"BibliU enhances and makes social and economic mobility possible. Through cost reduction and by making available necessary educational resource systems that are so important for our students to have on the first day of class, they recognize that finances and distance are a challenge. In that regard, we've had to change how we think about higher education. Jackson College is not a higher education or teaching institution—we're in the business of human development and advancing humanity."

Dr. Daniel J. Phelan - President

WSU TECH

"Accelerating our commitment to digital content is a key initiative as we address the needs of our diverse student population. Before BibliU, the processes for finding, selecting, managing, and deploying content were manual and cumbersome. BibliU enables us to not only offer content at a lower price but also to streamline and automate our administrative processes."

Trish Schmidt - Dean of Academic Services
