

More time, more revenue, less stress

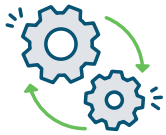

Storypark Manage integrates advanced childcare management software from Xap with Storypark. Streamlining your administration and educational practices in one place leaves you more time to manage your centre and improve the experience of families and your team.

Key benefits:

Maximise occupancy and revenue

Customisable enrolment, waitlist and smart booking management tools will leave you more time to spend growing your profitability and occupancy.

Save time on manual tasks

Gain back valuable time and reduce your workload with smart automations and an intuitive design that will increase productivity to allow you to focus on growing your business.

Customise to your brand, philosophies and practice

Create your own enrolment forms and rules for specific groups of services.

Experience the quality and depth of the specialised Storypark and Xap platforms with a seamless integration you would expect from an all in one.

We are confident that we have found the best solution on the market. We met with all competitors and Xap is by far the best provider.

What it does:

- ✓ Manage waitlists and identify vacancies in seconds
- ✓ Use a digital attendance system that maintains daily audit logs with simple check-in and checkout times
- ✓ Effortless child care billing means you can automate rebate estimates, payment reminding and invoicing
- ✓ Multisites can switch between multiple centres from a single login and dashboard
- ✓ Integrates with Storypark to reduce workload and improve the family experience
