

# Commission on Accreditation of Allied Health Education Programs

## Upcoming Changes in CAAHEP Accreditation Fee Structure

As the leading Allied Health Professions programmatic accreditor in the United States, CAAHEP is committed to sustainability in its operations and services. To achieve its Mission and Vision, the CAAHEP Board of Directors approved changes to its fee structure effective July 1, 2023. Additional revenue from these changes will improve CAAHEP's infrastructure and staffing to realize its strategic goals, including improvements in the Accreditation Management System, data reporting, and Committee on Accreditation services.

The approved 2023-2025 schedule of fees is currently available on the website. CAAHEP recognizes the complexities of program sponsor budgets, so it is providing early notifications of the upcoming changes.

### Fee Structure

As a programmatic accreditor, CAAHEP activities occur for each program, regardless of the number of programs within a single institution. Starting with the 2023 Fiscal Year (July 1- June 30), CAAHEP will begin assessing its Annual Accreditation Fees *for each program it accredits*, rather than by institution. Invoices for annual accreditation fees will be sent directly to the program director of each CAAHEP-accredited program.

If a program has multiple learning concentrations, add-ons, or award levels within one CAAHEP profession at the same location, that program will only be required to remit one accreditation fee annually. *For example, if a program sponsor has a Diagnostic Medical Sonography program with multiple learning concentrations located at the same address, it will be counted as a single program for billing purposes.*

The CAAHEP Board of Directors has approved the following Fee changes, effective July 1, 2023.
