

SWEETSPARKMAN

ARCHITECTURE & INTERIORS

INSPIRING HOME AND WORK ENVIRONMENTS

Sweet Sparkman Architecture and Interiors provides creative, professional interior design services for residential and commercial clients. Our collaborative process enhances our clients' living and working spaces. Fueled by a deep understanding of the client and their vision, we strive to create interiors that surpass expectations.

INTEGRATED DESIGN

In residential interior design, we create spaces that serve as part of a cohesive environment, incorporating the home's architecture, natural surroundings, and its exterior. The result is a fluid feel that heightens the unique qualities of each of its elements. For clients who share our passion for sustainability and ecological balance, we integrate environmentally conscious materials and furnishings, whenever possible.

MAKING A STATEMENT

For commercial projects, this means adding value with effective space planning contributing to maximum productivity. The modern workplace must be comfortable and energizing, creating an atmosphere of purpose and activity. Both the design and its components should endure with quality, sustainable materials, and a timeless elegance

PROFESSIONAL COMMITMENT

We take great joy in helping clients create environments that accurately reflect their own stories. More than just designers, we are also a confidante, who listens, learns, and responds. Design is a process to be enjoyed.

BREAKING THE MOLD

The varied and international backgrounds of our architects and designers bring fresh perspectives. Our forward thinking keeps us ahead of styles and not dependent on trends. At Sweet Sparkman, we tailor function and form for each project melding styles to fit the client's aesthetic. We love the alchemy of it all, creating timeless, yet unexpected, design that never really ages, pushing boundaries, and incorporating new ideas, textures and concepts.

ELOISE ABRAHAM, LEAD DESIGNER

Born and raised in England, Eloise's initial passion was the theater. In her training, she was fascinated by manipulation of the mise en scène to convey the psychology of a space and how the arrangement of scenery and props on stage controlled the ambiance. That led her to study Product and Spatial design before completing her degree at KLC School of Interior Design in Chelsea, London. She began her career working on high-end residential projects throughout Europe. In 2013, she moved permanently to the United States, finally bringing her skills, unique perspective, and experience to Sweet Sparkman Architects and Interiors.

JERRY SPARKMAN, AIA, NCARB

The creative force behind the Casey Key Residence project, Jerry, is a second-generation architect growing up in his father's firm in Knoxville TN. In 2004 Jerry Sparkman joined with Todd Sweet to form Sweet Sparkman Architecture and Interiors. Now with a staff of 25, the firm specializes in educational facilities, publicly funded projects, fire station design, civic community spaces, and high-end residential homes and interiors. Sweet Sparkman Architecture and Interiors has been awarded locally, nationally, and internationally. The firm was named the 2018 Florida / Caribbean American Institute of Architects firm of the year. In addition to being an award-winning architect, he is a talented musician, playing slide guitar and mandolin in several local bands.
