#### **COACH TIPS:**

As your Client begins their journey to optimal wellbeing, they may feel hungry, tired, or irritable as their body adjusts to a new way of eating. While adjusting to intake of a lower-calorie level and diet changes, some people may experience temporary lightheadedness, dizziness or gastrointestinal disturbances.

When speaking to your Clients, here are a few additional tips to make the adjustment period easier into fat burning for your Clients.

#### You can remind them to:

- · Download and use the Habits of Health® App to track their Fuelings and water intake.
- · Stay hydrated with water.\*
- · Consider choosing a start date when you don't expect any social food-centered events.
- · Stay busy.
- Approach their health journey, one day at a time.
- Open up Your LifeBook, put your name in it & read the introduction, once in a fat burning state.
- · Avoid temptations, and stay focused on your health goals.
- Sip on 1 cup of broth or eat 2 dill pickle spears (as needed in the first few days). \*If Client has no sodium restrictions.
- Wait to start exercising for 2 3 weeks on the Optimal Weight 5 & 1 Plan®.

Thank you for sharing, now I'd like to tell you how

Is there anything else you think I should know about your health?

\*We recommend drinking 64 ounces of water each day. Talk with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

### HEALTH ASSESSMENT: CLIENT CHECK-IN TRACKER

Make sure to call your Client during the first week per the schedule below!

### REMEMBER TO CONTINUE TO CHECK-IN WITH YOUR CLIENT FROM DAY 7 ONWARD .

Ask them: "Have you shared your success with anyone? Are people asking you about your transformation?" When that happens, you can refer those people to me and receive "X" (if you choose to do a referral program on your own to thank people for referrals, please discuss with your Business Coach). Or, because people often prefer to be coached by their friends and family, you may want to consider Coaching them yourself. A significant percentage of our Coaches were Clients first who became healthy and then decided to "pay it forward."

# TIPS FOR WORKING WITH NEW CLIENTS:

- 1 Place their completed Health Assessment in **Section 2 'New Clients'** folder.
- 2 Make sure you have your weekly check-ins with your New Clients, discuss their Health Assessment with them and make a note of their progress.
- 3 Set a Client Support day during the week and graduate all Week 1 Clients to that day's schedule moving forward.
- 4 Once a Client has been on their Program for one month, move them to Section 3 'Active Clients' folder.
