

LENA KRIS

Measure the inside diameter using an existing ring.

Diameter (mm)	15,3	15,9	16,2	16,5	16,8	17,2	17,5	17,8	18,1	18,4	18,8	19,1	19,7	20,3	21,0	21,6
Order Size	48	50	51	52	53	54	55	56	57	58	59	60	62	64	66	68

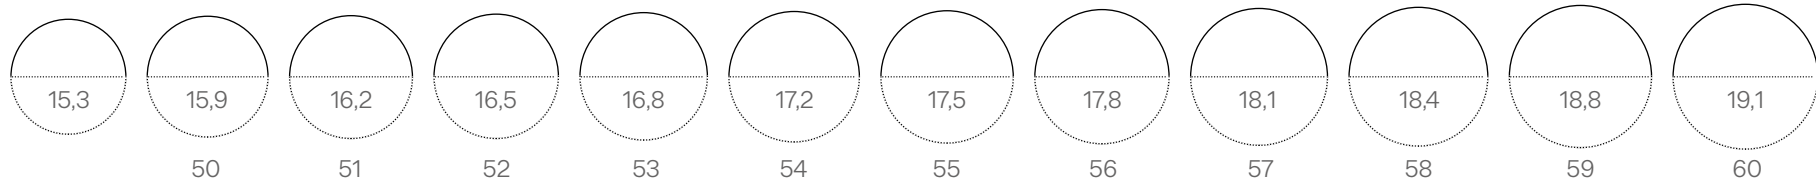

2. Ring Size Chart

Method 1

place an existing ring on the chart's circles until you match your ring – if your ring falls between two sizes, we recommend you order the larger size.

Method 2

Fold the sheet along the dotted line in the middle of the circles and cut out the semicircles along the outer line. Now check which size fits your finger.

You may verify the accuracy of the measurements with the scales. Go to your 'print settings' before printing and ensure that the 'page scaling' options are not set to scale or shrink.
