Monument, CO 80132

Dear Kimberly:

The ACE Blockchain Challenge provides an excellent opportunity to develop an ecosystem focused on teacher data agency. The International Alliance of Trust Chains, Inc. (IATC), is a Colorado-based 501(C3) organization, whose mission is to provide neutral governance for blockchain/distributed ledger adoption worldwide. We are pleased to provide RANDA Solutions, lead proposer, this letter of support, and to acknowledge of our intent to participate in this ecosystem. RANDA Solutions has long been recognized for providing cutting-edge technology to manage education data, and we are confident in their ecosystem approach to support teachers. Our experience in working with the State of Colorado to organize and facilitate blockchain/ distributed ledger adoption for state programs gives us a unique perspective on the requirements for a globally scalable ecosystem to host and manage teacher credentials on distributed ledgers.

IATC looks forward to collaborating with the community involved in this ecosystem, the approach to put teachers at the core of education, and to the goal to improve student learning outcomes.

Sincerely,

A handwritten signature in black ink that reads "Kent D. Lambert". The signature is written in a cursive, flowing style.
