Kimberly Linson  
RANDA Solutions  
2555 Meridian Blvd Suite 300,  
Franklin, TN 37067

Dear Kimberly:

The ACE Blockchain Challenge provides an excellent opportunity to develop an ecosystem focused on teacher data agency. The Velocity Network Foundation is pleased to provide RANDA Solutions, lead proposer, this letter of support and acknowledgement of our intention to participate in this ecosystem. RANDA Solutions is long recognized for providing cutting-edge technology to manage education data and we are confident in the ecosystem approach to supporting teachers. Our own experience in developing the technical, compliance, governance and ecosystem requirements of a blockchain-based self-sovereign digital credentials network, coupled with decades of experience working with the world's largest HR software and service providers, gives us a unique perspective on the transformational opportunity for teachers when they have full agency over their comprehensive, secure and trusted digital credentials.

The Velocity Network Foundation looks forward to collaborating with the community involved in this ecosystem and the approach putting teachers at the core of education and improving learning outcomes.

Sincerely,

**Yvette Cameron**
